

VEO OPTIC GUARD HARNESSES

The **VEO OPTIC GUARD** series is the perfect harness solution for passionate birders who use their binoculars or cameras for extended periods. Designed to deliver the **ultimate in comfort**, enabling you carry your gear in the field with ease, the series also incorporates Vanguard's patented **quick release system** that allows you to switch your strap or harness in seconds. So whether you're just heading out for a short hike, or trekking in the mountains, Vanguard's VEO OPTIC GUARD series allows you to select the best option for your trip.

VANGUARD CINCH LOCK SYSTEM

Key Features:

- 1 Securely attached and detached to the binocular/ camera eyelets
- 2 Easy to attach with one hand
- 3 Fits most optics and cameras with eyelets for 15-20mm straps

For everyday use, a neck strap is great, but sometimes you need another solution. For longer treks or frequent usage, spreading your optics or camera weight across your shoulders with a proper harness can make a huge impact on your comfort and energy levels throughout the day. For shorter trips, a wrist strap is an excellent way to prevent you from dropping your valuable gear while keeping it ready for instant use. So choose and fit the best solution for your day in seconds with Vanguard's innovative new quick-release system.
