

VEO PA-65 Universal Digiscope Adaptor

Delivering more
from your smartphone

Includes Bluetooth remote control for IOS or Android

Designed to fit almost any smartphone up to 90mm/3.5 inches wide, and almost any spotting scope (or other optic) with an eyepiece between 34mm/1.3 inches to 54mm/2.1 inches

Vanguard believes creating memories is fundamental to our life and wellbeing, but not everyone can carry an expensive camera and lens all the time.

VEO PA-65 Universal Digiscope Adaptor is designed to allow people to capture memories on most Smartphones without the need for expensive lenses, using everyday optics such as monoculars, binoculars, and spotting scopes.

Using the Bluetooth remote control (included) and a tripod or monopod, the photographer can take their photo without touching the screen to minimize the risk of movement and get higher quality photos!

VEO PA-65 Universal Digiscope Adaptor

Attaching your smartphone to the VEO PA-65

Loosen the front lock to adjust the eyepiece position

Use the clamp to securely fit a smartphone 59-90mm wide

Adjust the position of the eyepiece to align with your chosen lens

Attaching your VEO PA-65 to your spotting scope

With the smartphone attached, open the grips using the switch on top of the adaptor

Place the open grips over the eyepiece of your chosen optics and secure firmly
