Colour Matched Accessories

Why offer your **customers**
standard, when you can offer a perfectly
coordinated accessory
for Visofold doors?

Available
from
11th March
2013

Colour Matched Accessories

We are pleased to announce the launch of a new colour matching painting service for our Visofold accessory ranges.

This will allow customers to offer the additional option of colour matched Visofold door furniture and hinges in any colour from the Sensations, KL or RAL palettes. Colour matching is initially available for our Visofold series only, with further product ranges to follow.

How to Order

It's easy! The sample order code shows the correct method to order Sensations colour SEN001, but this is the same process for any colour finish including standard WP and BL.

Sample order code single unit:
ACDV225/SEN001

Note: If you are ordering a dual colour product, it is the customer's responsibility to ensure that both the correct quantities and colour codes are ordered for each item.

Our colour palette is constantly updated, please contact your Customer Service Advisor for the up-to-date standard finishes.

Gaskets are only available in black and cannot be colour matched.

What Accessories Are Available?

Any accessories from our Visofold 1000, 2000, 3000 & 4000 doors that are already available in a painted finish can be colour matched, with further systems to be available in the near future.
