

Dishwasher Powder Recipe

The Recipe

Dishwasher powder isn't cheap, so why buy it when you can make your own for so much less? Its so simple. Here's what you'll need.

Ingredients

- 1 cup baking soda
- 1 cup Lectric Washing Soda
- 1/4 cup salt
- 1/4 cup citric acid (available in baking aisle of supermarket)
- a few drops of tea-tree oil

Method

1. In a sealed container, shake the ingredients together well.
2. use approximately two tablespoons per load. Easy!

Tips

- Alternatively use Lectric Washing Soda as a detergent booster. Add 1 tablespoon of Lectric Washing Soda to dishwashers to boost the cleaning power of all brands of detergent. It makes every wash more powerful. Crockery and dishes will come out shining.
