

PARIS GARE DE LYON RAILWAY STATION 2019 RENOVATION

Johann "nojhan" Dréo - Wikimedia Commons - url on website

Paris Gare de Lyon, the third busiest railway station in France and one of the busiest in Europe, handles approximately 90,000,000 passengers every year. It is the main train line from Paris to the south of France.

Le Train Bleu Restaurant inside the Gare de Lyon

None of the limestone flooring in the Gare de Lyon has been replaced since 1900, when the station was first built for The World Exposition.
