OPERATING INSTRUCTIONS

AS A POWER SOURCE

Both USB-A and USB-C ports are capable of power output individually or simultaneously.

Plug USB cable of external device into either corresponding USB port to automatically turn Power Bank on. External device will begin to receive power.

ON/OFF

To turn Power Bank on, click Power Button once.

Power automatically turns on when USB cable is plugged in.

Power automatically turns off 30 seconds after removing USB cable from either port.

Note: When not in use, cover USB ports with Port Cover to protect from dust and moisture.

RECHARGE POWER BANK

Plug USB-C Cable into external power source and USB-C Port on Power Bank.

USB-C to USB-A adapter included (if needed).
OPERATING INSTRUCTIONS

BATTERY LEVEL INDICATOR

Press Power Button once to show Battery Level Indicator.

**Note:** When fully charged, all four lights will be solid.

SAFETY INSTRUCTIONS

- Store Power Bank in a cool, dry place at all times. Operating temperature should stay between 0°C to 45°C. When charging a device, the Power Bank may feel warm. This is a normal operating condition.

- Do not disassemble and reassemble the Power Bank. Please contact Barebones if product becomes faulty.

- If Power Bank is not in use for long durations, charge and discharge once every three months. Battery performance will decline over several years in normal conditions.

- Keep Power Bank away from heat and fire, and do not clean with harsh chemicals or detergents.

- Refrain from misuse, dropping, or excessive force to the Power Bank to reduce the risk of damage.
