

## RL4 MOTORBIKE RAIN LIGHT

Rain light made of 4 red colored LEDs.  
 High brightness, available with/without light diffuser.  
 Mechanical: aluminum case fully machined and black anodized.  
 Waterproof: IP67 grade, electronics is fully sealed with Motorsport resin.  
 Raychem free wires in DR-25 tube.  
 Motorsport connector and custom wires on request.

| Code  | Brightness – FOV | Brightness with light diffuser – FOV |
|-------|------------------|--------------------------------------|
| RL4   | 21 Lux - 55°     | -                                    |
| RL4-H | 80 Lux - 55°     | 37 Lux - 80°                         |

Test made @13.8V, at 1mt distance from the light source, in absence of external light

### TECHNICAL SPECIFICATIONS:

- ◆ Supply: 8÷15 V
- ◆ Current consumption: RL4 ~ 10mA @13.8V  
RL4-H ~ 40mA @13.8V
- ◆ Led color: Red
- ◆ Temperature range: -20° ÷ 150 °C
- ◆ Protection: IP67
- ◆ Weight: ~ 22gr
- ◆ Cable length: AWG24 Spec 55A, 500mm
- ◆ Connections: Free wires, connector on request
- ◆ Cable exit: Straight
