

FRONT FORK SPRING KIT

Congratulations!

With this purchase you have made a clear statement...the high performance Front fork Spring Kit from Öhlins Racing is nothing but pure racing breed which means that you have taken one more step to eliminate luck on your motorcycle.

The balance between your front fork and rear suspension will sharpen up and the performance of your front fork will improve...30 years of racing experience is now a crucial part of your riding experience.

This kit should only be installed by an authorized Öhlins Service Centre!

Öhlins Racing AB cannot be held responsible for any personal injury or damage that may occur after installing the Öhlins spring kit. Contact an Öhlins Service Centre for advice about how to install and maintain this product properly.

HOW TO INSTALL

Replace the standard spring with the Öhlins spring. Install in the same way as the original unit.
