#### Note!

Please note that this image is a general representation of the product and may differ slightly from your product.

#### Note!

Please note that during storage and transportation, especially at high ambient temperature, some of the oil and grease used for assembling may leak and stain the packaging. This is in no way detrimental to the product, wipe off the excessive oil/grease with a cloth.

## **▲** Warning!

Before installing this product, read the Öhlins Owner's Manual. The shock absorber/front fork/steering damper is an important part of your vehicle and will affect the stability.

**Product for Kawasaki ZZR1400** 

KA 046

**Mounting Instructions** 

# ▲ Warning!

It is advisable to have an Öhlins dealer install the shock absorber/front fork/steering damper.

# **▲** Warning!

If working on a raised vehicle, ensure it is securely supported so that it will not tip.

### Note!

Before mounting this product clean the vehicle thoroughly.

### Note!

When working on this product, always see the Vehicle Service Manual for vehicle specific procedures and important data.

1

Remove the original shock absorber.

2

Install the Öhlins shock absorber using the screws from the original attachments.

The gas fill screw should point backwards.

Do not tighten yet.

### Note!

Lower the vehicle so that the suspension is slightly compressed before tightening the screws.

4

Tighten all screws.

Ensure that all screws are tightened to the correct torque and that nothing fouls or restricts movement of the shock absorber/front fork/steering damper when the suspension is fully compressed or extended.
