

PRISMJET 226HTR REMOVABLE WALL VINYL TECHINCAL DATA SHEET

PrismJET 226HTR is a 6 mil, matte, semi-rigid printable vinyl for interior temporary and removable signage. The HTR suffix stands for “high tack removable.” That means this application is for textured walls and surfaces that are difficult to stick to because of the rapid bond. Yet, it’s still removable, so it won’t damage walls.

PrismJET 226HTR has a clear removable acrylic pressure sensitive adhesive laminated to a 90# layflat liner.
