PRISMJET 229HTR WALL CANVAS VINYL TECHINCAL DATA SHEET

PrismJET 229HTR is a 6 mil, matte, semi-rigid printable vinyl with an embossed canvas pattern that resembles an artist canvas for interior temporary and removable signage. The HTR suffix stands for "high tack removable." That means this application is for textured walls and surfaces that are difficult to stick to because of the rapid bond. Yet, it's still removable, so it won't damage walls.

PrismJET 229HTR has a clear removable acrylic pressure sensitive adhesive laminated to a 90# layflat liner.

FILM		
Face Film	White Polymeric	
Film Finish	Matte	
Film Thickness	6.0 mil / 152 μm
