

PRISMJET 60/40 ONE WAY VIEW PERFORATED WINDOW VINYL

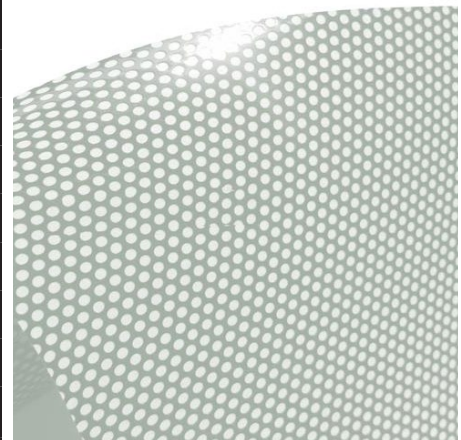

TECHNICAL DATA SHEET

PrismJET 60/40 One Way View is a 6 mil, calendered printable vinyl with 60/40 perforation pattern for one-way-view commercial storefront graphics. The 'one way view' effect is created by the perforated face film. The vinyl is opaque when viewed from the printed side and translucent when viewed from the reverse side. The 60/40 perforation pattern means 60% of the face film is retained. This enhances image quality and opacity.

However, it reduces visibility from the reverse side relative to 50/50 film. Therefore 60/40 film is not approved for use on windows of commercial or personal motor vehicles.

PrismJET 60/40 One Way View has a clear, removable, acrylic, pressure-sensitive adhesive laminated to a 90# layflat release liner. The film is intended for application on smooth, flat surfaces.

FILM	
Face Film	Polymeric Calendered
Film Finish	Matte
Film Thickness	6.5 mil
ADHESIVE	
Adhesive Type	Removable Polyacrylate Acrylic
Adhesive Thickness	0.8-1.0 / 20 - 25 µm
Adhesive Color	Clear
LINER	
Liner Weight	90#
Liner Type	White PE Coated
PERFORMANCE GUIDANCE	
Shelf Life	1 Year
Storage Temp/Rel. Humidity	70°F / 50%
Outdoor Durability	up to 1 year

PrismJET 60/40 One Way View is available in sizes of 42-inch by 54-yard and 54-inch and 60-inch by 33-yard rolls.

Compatible with ORAGUARD 290F and PrismJET 231 overlaminate film. For best results for optical clarity, 290F or a comparable, optically clear cast film is recommended.
