

The **Y2**, **Y3** and **Y4** cables are UL rated 20AWG DC power lead splitters that are typically used to share a low voltage power source with two or more devices such as low voltage lighting and security cameras systems as long as both devices use the same type of low voltage power - 12V DC or 24V DC for example. The single end of the cable has a 2.1mm x 5.5mm male plug in a molded plastic end to firmly secure attached male ends and the multi-ends have 2.1mm x 5.5mm female connector.

## Y2

### PRODUCT SUMMARY

Color: Black

Material: High-quality copper with molded PVC | Inner molded LDPE

Connector: 2.1mm x 5.5mm

Warranty: 3 Years

Ordering Code: Y220

## Y3

### PRODUCT SUMMARY

Color: Black

Material: High-quality copper with molded PVC | Inner molded LDPE

Connector: 2.1mm x 5.5mm

Warranty: 3 Years

Ordering Code: Y320

## Y4

### PRODUCT SUMMARY

Color: Black

Material: High-quality copper with molded PVC | Inner molded LDPE

Connector: 2.1mm x 5.5mm

Warranty: 3 Years

Ordering Code: Y420
