

Sarah Angst Art

Cards & stickers you love to give, get, or keep forever.

VOLUME 4.0

Welcome! Sarah Angst Art began in 2011 with a decision to create affordable reproductions of Sarah's bright & bold, hand painted lin-cuts. Customers were so drawn to her beautiful imagery that greeting cards seemed like the perfect medium to share her art with a vast audience. With compliments from customers like "We buy your cards by the handful!" we know the choice to create greeting cards and now stickers was the right one. People from all walks of life find affordable images they want to give, keep, or frame.

"Creating original block prints forces me to simplify things; to find the essence of my subject and display it with line and color. With so many distractions in life, it is soothing to find something simple and serene, that grabs your attention, but reminds you to slow down and enjoy the beauty in life.

I like creating pieces that seem familiar to people; that help remind them of fond memories from their own lives. When I finish a piece and it has a timeless nostalgic quality, my hope is that feeling will resonate with others as well.

I have always loved creating art - ever since I was a little girl. Putting elements together until they look and feel just right is very rewarding. Having others respond so positively to what I've created is even better."
