

Ring Size Guide

INSTRUCTIONS

Use this handy guide to measure your ring size with an existing ring. Before starting, please make sure you print this A4 document at 100% scale. This is very important! If you are unsure if the page is to scale, measure the below line with a ruler: it should be 85 mm long.

STEP ONE

Place a ring that fits you well on this piece of paper.

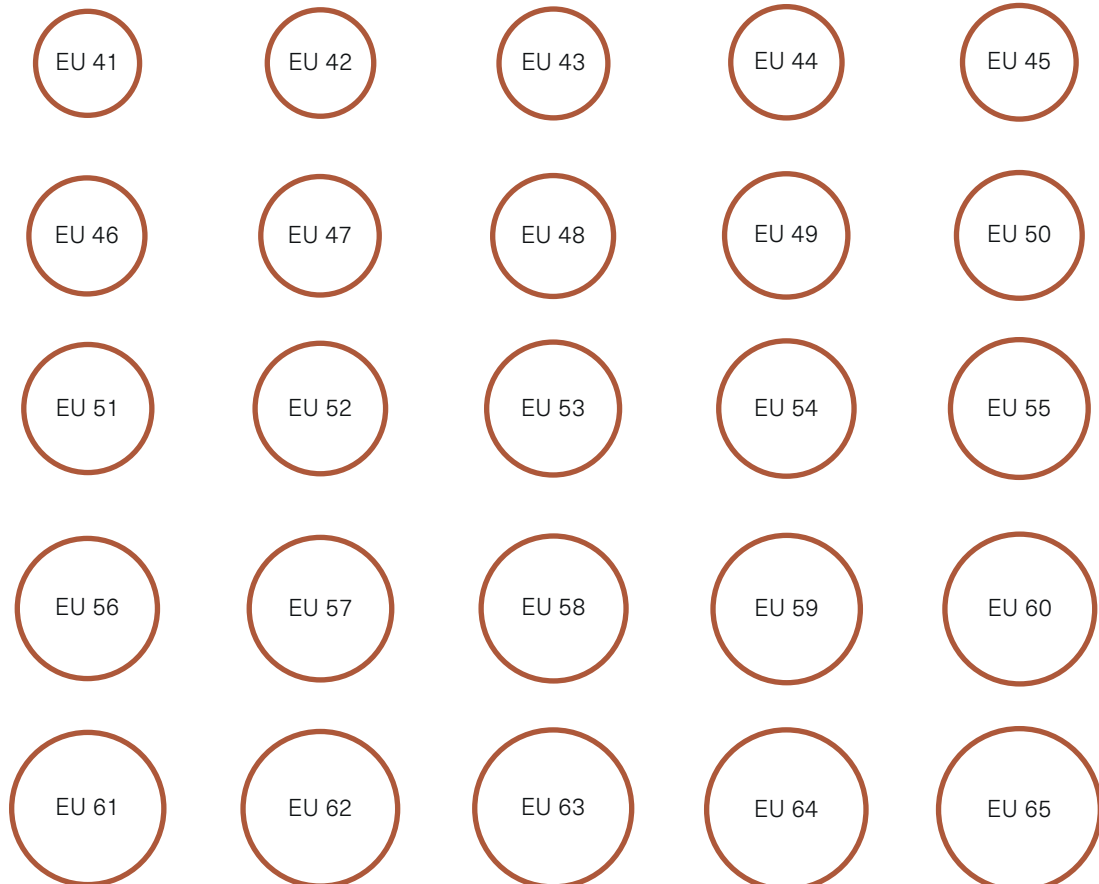

STEP TWO

Match the inside of the ring with one of the circles below.

The ring should cover the entire inner circle, with little to no brown border inside the ring.

TIP

If the ring falls between two sizes, we recommend choosing the larger size.
