(E) Strong Antifungal Cream

If you wish, prepare some photos of before and after treatment for your own record.

STEP 1 (DOCTORMOM Formulas)

Dosage:

- Up to 10kg:** Take 1/8 sachet
10kg* to 25kg: Take 1/4 sachet
25kg* to 40kg: Take 1/2 sachet
40kg and over: Take 1 full sachet

Instructional Video available on YouTube
"How to take DOCTORMOM Formulas"

Note: During course of treatment, avoid taking radish and skin of mung bean.

Instructions:

- 1/2 (A) *DiLingDan N* + 1/2 (B) *LianQiaoSan*
- 1/2 (A) *DiLingDan N* + 1/2 (C) *QinJiaoSan N*

Ingest (while warm) 15 minutes prior to your meal, for a total of 28 days. To be taken once daily and alternatively.

Odd days take (A) + (B) mixture.

Even days take (A) + (C) mixture.

STEP 2 (QP Power)

QP Power has a strong power to attack fungi (psoriasis), but it is not suitable for everyday use. *QP Power* can be used once every 7 days. All other days, apply *Strong Antifungal Cream* as mentioned in STEP 3.

- Sink the affected skin in warm to hot water (using a bucket, bathtub, etc.) for up to 1 hour to soften psoriasis patches.
- After drying the body with a clean towel, apply *QP Power* on the affected skin, leaving it on for 24 hours. Use once only within a 7-day time frame.
- If psoriasis is on hands area, re-apply *QP Power* after washing hands.

STEP 3 (Strong Antifungal Cream)

- After shower and drying the body with a clean towel, apply *Strong Antifungal Cream* on the affected skin. Use once daily and leave it on for 24 hours. Repeat for 28 days.
- If psoriasis is on hands, re-apply cream after washing hands.
- Inspect your skin weekly to ensure no signs of psoriasis is recurring. If any stubborn psoriasis persists, **DO NOT IGNORE**, re-apply *QP Power* (in STEP 2) on that area. For cleared areas, continue applying *Strong Antifungal Cream*.

Note: After psoriasis is eliminated, scars or pigmentation marks may persist and will need time to recover to the original skin condition.
