

High applicability by safe material and various functions

## 'Monee Silicone Bowl'

# BABY

### Baby Bowl 150ml

Set of silicone lid, baby bowl and handles. It is easy to use. The handle attached to the bowl makes it convenient to hold the bowl while you feed your child or when children feed themselves.

If you want to store baby food in the bowl, you can remove the handles and stack bowls to save space.

You can use it for a tableware by attaching the handles.

# KIDS

### Kids Bowls 300ml

Multi-purpose kids bowl of big size. They can be used for various purposes from rice to snacks and cereal, from babies to adults.

### Special Features

## Good things about Monee Silicone Bowl

### Everything is ok!

#### Convenient Silicone Bowl

Dishwasher OK. Microwave OK, Hot water disinfection OK, Freezer OK. Light and unbreakable material. Safe at anywhere. You can easily wash with running water.

Sterilizer

Dishwasher

Freezer

Microwave

### Round Design to Prevent Food Spilling

Monee Silicone Bowl' round sides make spoon use easy and prevent food from leaking out of the bowl.

### Slanted Bottom Design

The slanted bottom makes food gather to one side, so you can finish the last piece of food easily.

### Convenient Scale Guide

You can check the amount of food. The precise scale guide inside the bowl helps easily measure the appropriate amount of food for the age of the child.

It doesn't break if you drop it!

## Reliable and Safe Materials

Monee Silicon Bowl doesn't contain bisphenol A(BPA), Phthalate and polyvinyl chloride(PVC) that can harm to children. It passed all domestic and international safety certification standards including LFGB of Germany, EN14372 of Europe and FDA of the US.
