## **I. OVERVIEW** *continued*

There are numerous organizations which are administered outside the service area state, and in these situations the contact information for the organization will correspond with a different state than the service area state in which the organization is listed. Also, please note listings for each organization are designed to all be provided on the same page. Thus some pages only contain one organization, while other pages may contain two.

908 ACOs were selected for the Organizational Directory, and undoubtedly additional commercial or other ACO programs are under development or potentially operating at this time. While the Organizational Directory lists all Medicare ACOs as of the time of publication, the commercial and Medicaid ACOs included in the Organizational Directory were selected on the basis of prominence and documented evidence of ACO activity, as opposed to inclusion of “ACO-like” arrangements or past announced organizations that do not have current documented activity, which have been included in some third-party reports and census on ACO activities.

For employees listed in the directory, only phone numbers of record are listed that are different than the main phone number indicated for the Organization. For employees without a different phone number indicated, the main phone number listed under organization information should be used. Also, please note, some employees are listed in multiple organizations, based upon their simultaneous assumption of responsibilities for applicable organizations.

The following Indexes have been provided in the Accountable Care Directory, which incorporate organizations and individuals listed in the Directory.

- Individuals by Organization
- Individuals by State
- Organizations by Name
- Organizations by State
- Affiliated Providers and Administrative Organizations Listed
- Organizational Additions and Deletions to the Directory

HealthQuest Publishers has endeavored to make the Accountable Care Directory has accurate, convenient and useful a resource as possible. Should you have any suggestions for improvement for future editions of this Directory, please do not hesitate to contact us at 209.577.488 or [mcare@mccl.com](mailto:mcare@mccl.com) at any time.

## II. ORGANIZATIONAL DIRECTORY

In alphabetical order of primary state of service

Organizations are formatted not to continue on separate pages. When space is available, two organizations are listed on a page, otherwise one organization is listed per page. The organization's mailing address location may be different than the primary state of service. Phone numbers are only listed for individual employees when a different number than the main company number is available. Otherwise, the primary phone number listed for the organization can be used.
