Please be advised: No part of this directory may be reproduced in any form or incorporated into any information retrieval system, electronic or mechanical, without written permission of the publishers. The publishers of this directory have made every effort to provide complete and accurate information for our readers regarding the individuals and the organizations featured in this Leadership Directory. However, the publishers and editors assume no liability for errors, omissions, or damages that may arise from the use of the information provided in this publication. Additionally, the inclusion of a particular individual or organization herein should not be construed as a recommendation or an endorsement by the publishers or the editors of this directory.

## How To Use This Directory

The National Managed Care Leadership Directory is designed to help you quickly identify key executives and staff with managed care organizations. The Directory is organized alphabetically by state (for either the company's primary state served or state of office location as applicable) and then alphabetically by company. You may also use the indexes provided in the back of the Directory, including: the Alphabetical Index to find companies by their name, Company Type Index to find companies by their type, Parent Company Index to find companies listed by their Parent Company and Job Function Index to find companies with listings for specific job functions.

### Company Description

1,207 companies are listed in this edition. The information included has been provided by the listed organizations or through MCOL research. Companies from multiple industry segments are included to provide a single source of information on major managed care organizations and their respective key staff. Parent Company information has been provided for many of the applicable organizations, and all companies have been classified according to the following Company Types: Administrative Organizations, Health Plans, PBMs, Provider Networks or Specialty Organizations. Specialty Organizations include Dental, Vision and Behavioral Health Networks. Administrative Organizations include selected Quality Improvement Organizations, Care Management Organizations, TPAs and Insurance Exchanges. Provider Networks include IPAs, PHOs, CINs, ACOs with commercial managed care arrangements and selected PACE programs.

### Executive Listing

There are 7,464 employees listed in this edition of the Directory. The individuals listed for each organization are those with key positions in various functions of the company. 33 key functions were identified which apply to many managed care organizations. In some cases, persons are listed under two separate functions for the same company when applicable. As such, there are 7,830 employee listings, including these 366 employees with two job functions indicated within the same company. Furthermore, some persons are listed in more than one company (under the same parent company) when they have responsibilities in more than one entity. In addition to the general functional descriptions, the specific titles of executives are listed when provided by their organizations. However, some titles are abbreviated or truncated due to space considerations.

### Download and On-Line Database Availability

The data contained herein is also available in a database bundle, or via an on-line subscription. An adobe acrobat version of this Directory, plus the Directory database in multiple file formats are provided in the Download Center. This facilitates sorting and selecting data for customized mailings, or outreach to appropriate individuals based on type of company, location, job category, or other criteria as defined by the user. In addition, the database files include employee direct phone and email contact information when available. For further information, please consult the HealthQuest Publications information sheet at the back of the Directory.

## ABOUT HEALTHQUEST PUBLISHERS

HealthQuest Publishers offers critical market intelligence for those doing business with the managed care and health care industries. HealthQuest directories provide leads, contact information, mailing lists, profiles and tools for those involved with marketing, recruitment, business development and others involved with health management and managed care.

HealthQuest Publishers has produced key managed care directories since 1994, including the popular *National Managed Care Leadership Directory*. MCOL acquired HealthQuest Publishers in 2000, and has expanded HealthQuest offerings to include a number of additional resources. MCOL has been delivering healthcare business information resources since 1995.

For more information, or to place orders on these and other HealthQuest publications, go to: [www.healthquestpublishers.com](http://www.healthquestpublishers.com) or call (209) 577-4888.
