TAK POWER KIT

20,000MAH ON-BODY POWER SOLUTION

The TAK Power Kit is a MOLLE-compatible, wearable power delivery system for phones, tablets, mesh network radios, and other peripheral devices. Designed to MIL-STD durability standards, its rugged design is reliable across natural disaster responses, extended expeditions, military operations, and other demanding outdoor missions. Capable of both wireless and line-out charging, the TAK Power Kit has a 20,000mAh capacity with both solar and line-in inputs for extended runtime and off-grid sustainment.

TAK Power Kit and cable mounted to a plate carrier.

TAK Power Kit

- 1 | 20,000 mAh (74Wh) Capacity Li-polymer Rechargeable Battery Pack
- 2 | Durable Solar Panel
- 3 | IP54 Ingress Protection Rating
- 4 | Drop & Impact Resistant TPU Case
- 5 | MOLLE-Compatible Mounting for Vests and Bags
- 6 | MOLLE-Compatible Mounted Cable Organizer
- 7 | Cable End Adapters
- 8 | Removable Battery Bank
- 9 | Integrated Multi-Mode Flashlight

Kit Includes

- A | Solar Battery Pack
- B | 3-in-1 Charging Cable (1m/3.3 ft)
- C | MOLLE-Compatible Pouch

Power Inputs

- Micro USB Input: DC 5V 2A (Max)
- Solar Panel: 5V 360mAh
- Type-C Input: DC 5V 3A (Max)

Power Outputs

- 1x Type-C Output: DC 5V 3A (Max)
- 2x USB A Outputs: DC 5V 3A (Max)
- 1x Wireless Output: Qi DC 5V 1A (Max)

Tech Spec

- Battery and Case Weight: 13oz
- Size: 6.6" L x 3.4" W x 0.8" T
- Operating Range: 0-113°F
- Four-LED Power Gauge
- Cable Supports Full 2.4 A Charging
- Onboard PCBA provides short-circuit, over-charge, and over-discharge protection.

USB-C to USB-C cable with inline USB-A and Lightning connector adapters

Pull the tab to remove the battery pack from the case

Built-in red LED flashlight to preserve night vision. Modes: Steady / Strobe / SOS
