goTenna PRO
DEPLOYMENT KIT 2™

Data Sheet

Introducing the goTenna Pro Deployment Kit 2™ (goKit 2™). Now featuring a ruggedized Samsung tablet, the goKit 2™ is a portable charging kit for up to 30 Pro X and Pro X2 devices that can be used as an off-grid mobile command center to provide unprecedented situational awareness at the tactical edge without cell service or satellite connectivity. Made in USA.

New Features

Tablet Operation
Device management, deployment tools, and other apps hosted on an included and removable Samsung Android Tablet.

Mobile Command Functionality
Deploy ATAK or goTenna Pro app within the goKit for mission control from anywhere. Tablet provides capability to enable connectivity of nodes to a centralized TAK server for relaying critical information to central command.

Rapid Deployment
Distribute mission information and device configuration over a WiFi hotspot through a single deployment pack, including encryption keys, frequency sets, map files, and more.

Security and Durability
Enhanced security and AES256 encryption via Android. The Samsung Android Tab Active 3 is IP68-rated and MIL-STD 810H ruggedized.

Key Benefits

Scalable
Fully equip up to 30 users from a single kit.

Rapidly Deployable
Configure and deploy within minutes, 100% off-grid.

Portable
Less than 25 lbs. Flight-ready as a carry-on or checked item. Internal battery meets IATA and TSA regulations.

Charging Station
Charge Pro X and X2 devices, tablets, phones, and other USB devices.

Portal Sync
Seamlessly updates configurations, apps, and more with your goTenna Portal account.
