

Vinyl Coated Wire Rope

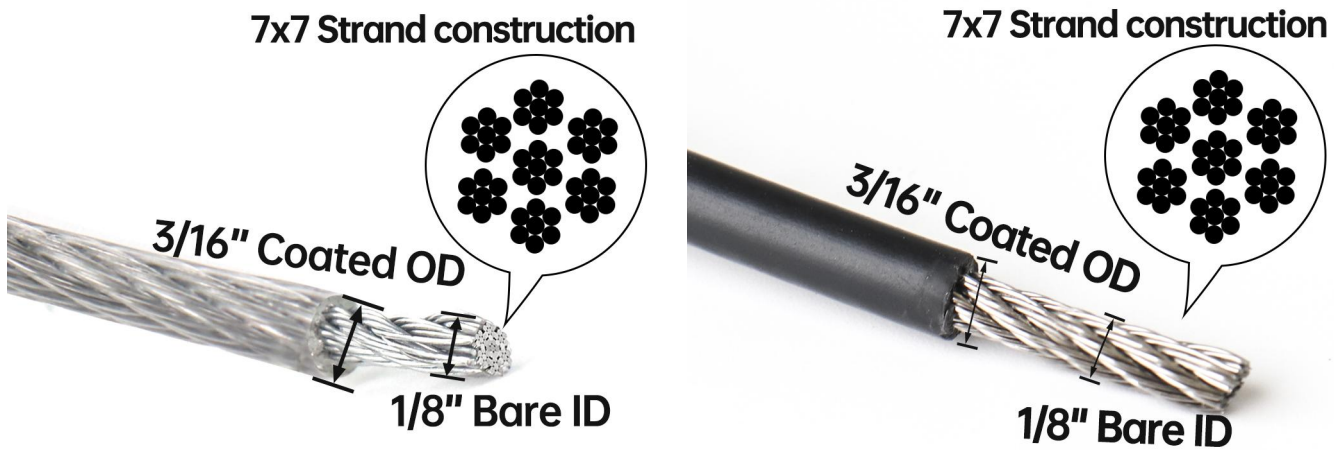

User Guide

1600704(20221201)

1. Overview

Muzata vinyl coated stainless steel wire rope are designed for a wide range of applications. The vinyl-coated wire rope is smooth without rough edges and easy to handle so you don't need to worry about being pricked by burrs. You can get a safe and aesthetical experience when using this wire rope.

2. Specifications

Model	Material	SPEC	Surface Finish
WR07	T304 stainless steel	1/8" Thru 3/16"	Crystal vinyl coated
WR17	T304 stainless steel	1/8" Thru 3/16"	Black vinyl coated
WR22	T316 stainless steel	1/8" Thru 3/16"	Black vinyl coated

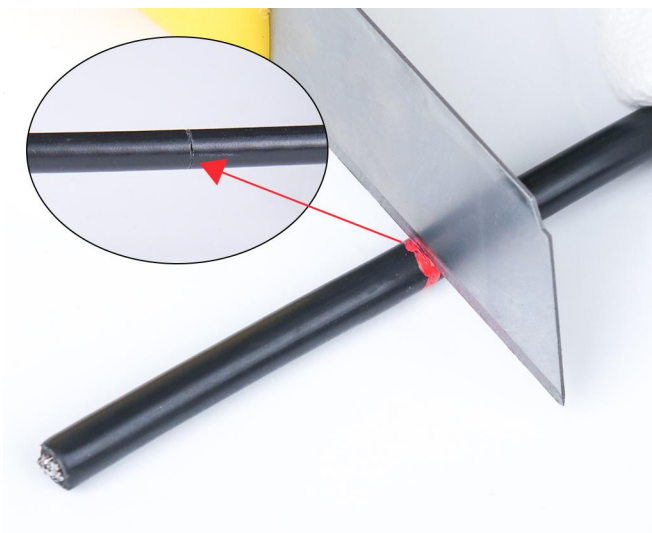

3. Installation steps

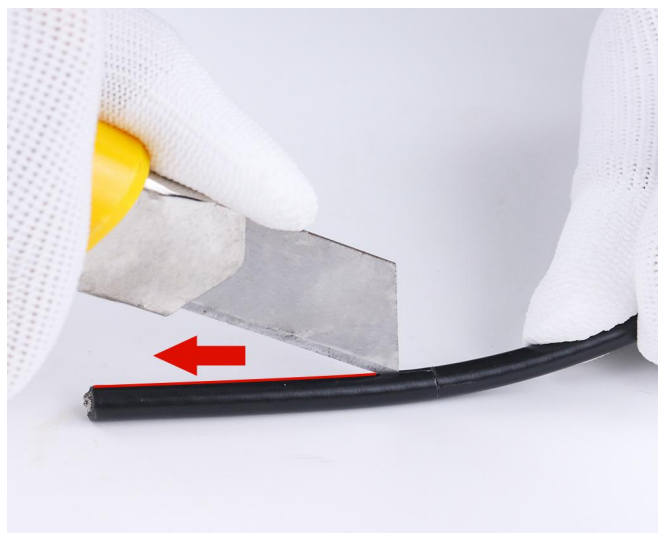

Step1 - Measure the depth of the 1/8" terminal by a thin rod or something similar that can be inserted into terminal; and mark the depth on the rod.

Step2 - Mark the depth of terminal on the wire rope.

Step3 - Ring-cut the vinyl coating along the mark.

Step4 - Cut the coating along the wire rope.

Step5 - Peel off the vinyl coating.

Step6 - Crimp the 1/8" terminal with the bare wire rope.

4. Tips

- (1) Please note that the INNER diameter(ID) of the vinyl coated stainless steel wire rope should be the same as the size of terminals. Vinyl coated wire ropes less than 1/8" ID are not suitable for railing systems.
- (2) Please note that the OUTER diameter(OD) of the vinyl coated stainless steel wire rope should be the same as the size of protector sleeves or adhesive sleeves. Vinyl coated wire ropes larger than 3/16" OD are not suitable for railing systems.
- (3) You might need to buy extra materials than expected in case some materials might not be reusable after operation mistakes.

5. Free design service

We offer custom cable railing design service for free. If you are a beginner or not sure about how to do it, please reach us. Our experts can do all the planning, designing and budget work for you without extra charging.
