Nano-Lithium® (NL) Concrete Treatment

PRODUCT DESCRIPTION

Pentra-Clean™ (CR) cleans floors by cutting through dirt, grime and residue. Through reactive Nano-Lithium® technology, this cleaner also hardens, protects and restores gloss and durability to the cleaned surface. Adding Pentra-Clean™ (CR) to a floor care program increases the floor's longevity, reducing maintenance and costly repairs. This product is ideal for cleaning commercial, retail, industrial, and institutional floors. Additionally, it enhances and restores dulled floors, setting it apart from conventional cleaners.

Pentra-Clean™ (CR) helps prevent marking, scuffing, and scratching if used on a regular basis, reducing the frequency of routine buffing and burnishing. It also extends the intervals between deep cleaning or restoration processes.

KEY BENEFITS

- Easily removes dirt and other surface soils
- Reduces the need for periodic buffing or burnishing
- Helps resist scuffing, scratching, and water spots
- Amplifies overall gloss and clarity with Nano-Lithium® technology
- Leaves no residue that will dull or damage a floor or floor finish
- Certified by the National Floor Safety Institute (NSFI) as "High Traction" under ANSI B101.1 Wet Test

APPLICATION

Sweep or vacuum to remove loose materials from the floor's surface.

This product is concentrated for use with an automatic floor scrubber. Use soft brushes/soft pads. Never use aggressive brushes or pads on polished concrete. Dilute one 4 oz package per 15 gallons of fresh water or add 4 oz cleaner per 15 gallons to the automatic floor scrubber water tank.

For routine cleaning, scrub the floor with the squeegee down and vacuum/squeegee engaged.

For deep cleaning, apply the cleaner and scrub floor with the brushes/pads engaged, but the vacuum/squeegee up. Allow product to sit on the surface without drying for 15 to 20 minutes, then scrub again with the brushes on and the vacuum/squeegee engaged. Add more cleaner as necessary.

After cleaning, buff the floor with a white or tan burnishing pad to increase shine.

**Before application, always do a small test sample in a less-visible area to be sure there are no variables or contaminants in the substrate that may be incompatible with this product.*

ESTIMATED COVERAGE

Add 4 oz of Pentra-Clean™ (CR) per 15 gallons of fresh water.

CLEAN UP

Clean tools and equipment with clean water.

MAINTENANCE

Daily cleaning with Pentra-Clean™ (DC) and periodic deep cleaning with Pentra-Clean™ (CR) is recommended to prolong the life of your surface. Consult a Convergent Concrete Representative for further information.

SAFETY/HEALTH INFORMATION

KEEP OUT OF REACH OF CHILDREN.

Do not drink. If swallowed, do not induce vomiting; drink two glasses of water and call a physician. Wear goggles and gloves. If splashed in eyes, rinse eyes immediately with clean water and call a physician if irritation persists. Clean skin with soap and water.

CAUTION: Surfaces wet with Pentra-Clean™ (CR) may be slippery.

Additional precautions, safety information and first aid treatments are contained in the Safety Data Sheet.
