Customers in the UK can call +44 (0) 1243 780501 or visit [www.polderproducts.co.uk](http://www.polderproducts.co.uk)

### PARTS LIST:

Please lay out all parts and read instructions prior to start of assembly:

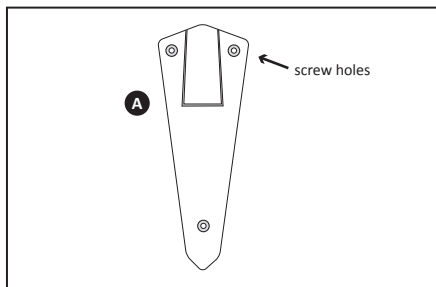

### WALL MOUNT INSTRUCTIONS:

**Step 1:** Position one bracket (A), with wider end pointing up, on the wall where the Wall Mount Accordion Drying Rack is to be mounted.

Using a pen, mark the 3 screw hole locations directly through the bracket screw holes.

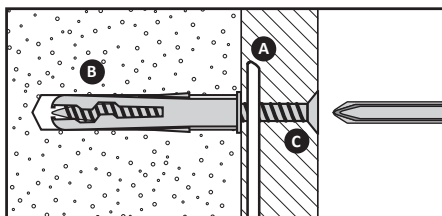

**Note:** be sure there are no electrical wires running through the wall in the area where the screws are to be placed.

**Step 3:** Move brackets away from wall and drill a hole in the marked areas, using 1/4" drill bit.

Press the plastic wall mount mollies (B) into the hole openings (3 for each bracket). Lightly tap with a hammer if necessary.

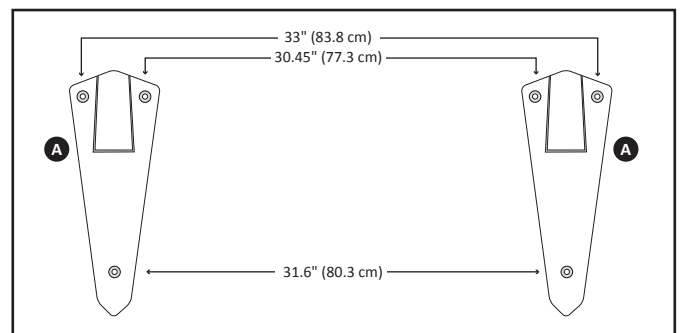

Place the brackets (A) over the wall mount mollies (B) and partially screw (C) into place. **DO NOT TIGHTEN.**

**Step 2:** Position the second bracket making sure to align the screw holes level with the first bracket.

Using a pen, mark the 3 screw hole locations directly through the bracket screw holes.

**Note:** the distances noted below are estimates and should be confirmed before moving on to the next step.

**Step 4:** Using a level, make sure the brackets are fully aligned. Once aligned, tighten brackets securely in place.

The Wall Mount Accordion Drying Rack can now be mounted. Dryer should slide onto brackets and sit securely in place.

Repeat steps 1-4 for optional wall mount in second location.
