

TaHoma works with Google Home & Google Assistant

## **1. GETTING STARTED**

Download from the online stores the mobile app Google Home & Google Assistant

Make sure you have already some **devices added**, and **scenes created** in your **Tahoma Living** Application.

# 2. GOOGLE HOME SETTING

Launch the Google Home mobile app on your mobile phone

- 1. Open your Google Home application
- 2. Tap on "Settings"
- 3. Scroll down and select Works with

Google...

4. Tap on "  $\mathbb{Q}$  " then type "somfy" in the search bar.

### 5. Select Somfy Asia & Oceania

6. Enter your TaHoma login (email address) and password to connect Google Home to Somfy Asia & Oceania smart services. (This operation is required only once).

Lighting and window covering devices paired with TaHoma with be automatically discovered and appear on the interface.

# **3. ENABLE THE VOICE CONTROL**

Now blinds, curtains and lights can be controlled even by with voice control with Google Assistant.

# 3. SCENARIO & ROUTINE

To launch the Tahoma scenes by using your voice is necessary link them to routines

	• -	_

6	Commuting to work	>
*	Good morning	(

1. Tap on **Routines.** 

2. Press on the **+** on the right down corner

Two type of routine can be created. Personal or common to all the user of the household.

Pressing "Household" or "Personal" is possible start the linking procedure

### Routines require starting conditions and action to be executed

#### The right devices and scenarios have to be selected

Leanning		

Is possible select either the devices present on the household installation and or include the Tahoma Scenario.

### Routines require starting conditions and action to be executed

The Tahoma scenarios are listed in the picture on the left. To include them in the Google home routines, just check mark them.

Somfy. Building happiness

When the routine is complete, it will look like the picture on the right. With a starting condition and an action to trigger.

The routines will be available for the activation in the main screen of Google Home.
