

## Simple story spoons

All you need to do to make a simple story spoon is cut around the dotted lines so you have 12 animals to choose from.

Grab a wooden spoon and a bit of blue tac and stick it to one side, it doesn't matter which.

Easily switch between the different animals on the same spoon, or stick one to each side of the spoon so you can rotate it.

Use the spoons to entertain your baby, along with our black and white range of books or make up your own story to bring their characteristics to life!

If you want a more permanent solution and happen to have lots of spare spoons, you can glue them on.

Don't have a wooden spoon? Don't worry! Find a stick thats a similar size and use that. In fact you could use a carboard tube, a pencil,a straw...whatever you have to hand.
