KIIAN DIGITAL | YOUR PREFERRED PARTNER

Headquartered in Novedrate, Italy, KiiAN Digital is a JK Group brand. The Group, operative from July 1st 2015, plays a central role in the digital textile printing market and it is the largest industrial digital sublimation Group with leading technologies and a global presence.

KiiAN Digital brand portfolio includes sublimation, disperse and pigmented inks sets for the Textile printing market. KiiAN Digital is the preferred partner for those seeking consistent quality and reliability as well as highest price-performance ratio in transfer and direct printing. With its roots in industrial specialty printing products, KiiAN Digital has a long experience in the development of customized solutions for the various existing print heads and applications able to fit to the customer's industrial processes and requirements.

KIIAN DIGITAL OFFERS A WIDE RANGE OF PRODUCTS FOR TEXTILE PRINTING

Sublimation Ink

Whether it be for direct or transfer printing, Kiian Digital offers a wide range of sublimation inks. Specifically developed for different print heads and with the application requirements woven-colours-surreal-tissue in mind. Compatible with most popular printers, up to industrial level systems, and always granting a consistent quality level. Kiian Digital sublimation inks are the 'de-facto' standard.

Pigment Ink for Textile Printing

In addition to the products for printing onto synthetic fabrics, Kiian Digital offers its pigment inks for those markets that use natural fibers such as cotton. High fastness properties and excellent colour stability define the reliability of the Kiian Digital pigment ink.

Disperse Ink

When fastness properties come into play, Kiian Digital has the right solution for direct to textile printing. The Kiian Digital disperse direct inks have been formulated to withstand the outdoor exposure of the end-product. Colour gamut, vibrancy and reliability are key to the disperse solutions.

Pigment Ink for Display

In its wide range of different ink formulations, Kiiian Digital also includes a pigment ink for printing on paper and cellulose substrates. A water based solution that offers excellent light fastness properties to realize prints with a satin finish. Moreover, this ink does not require any risk labeling. It allows a significant reduction of waste disposal cost. The Kiiian Digital pigment inks are perfectly suited to produce promotional items, posters and fine art.
