molecular HEMP

Brand of Premium CBD Products

www.GoMolecularHealth.com

TESTED AND RECOMMENDED BY PROFESSIONALS

SCIENTIFICALLY FORMULATED

Our tincture line features four progressively stronger concentrations of our CBD rich hemp oil extract, facilitating better dose titration based on patients sensitivity, body size, severity of condition and desired result.

We utilize Medium Chain Triglyceride (MCT) oil as the base ingredient in our tincture for its own recognized health benefits and its complimentary properties relative to CBD rich hemp oil extract such as increased bio-availability and a neutral flavor.

CONSISTENT QUALITY AND EFFICACY

Our rigorous quality program ensures our contract farmers use the same certified, pedigreed seed to grow CBD rich industrial Hemp. We use a standardized, sustainable process from planting to processing.

Our full spectrum hemp oil extract is made utilizing state of the art, high pressure Co2 extractors. They utilize specific PSI and temperatures to extract not only CBD, but other helpful compounds like terpenes and flavinoids that are believed to contribute to an "entourage effect".

MOLECULAR HEALTH BRAND PROMISE

Molecular Health formulates and manufactures products with a few simple principles. You can count on finding products that enhance your health and help you live a better life. Our brand promise is as follows:

- Organically grown ingredients, non-GMO other than selective breeding
- Strict adherence to Good Manufacturing Practices (GMP)
- Bio-regional & sustainable operations, environmentally sustainable practices
- Do good in and for the communities where we operate, and beyond
