Anderson Teak first started as a manufacture of teak outdoor furniture located in Central Java, Indonesia where the best teak grows. After 16 years of being a division of teak outdoor furniture, Anderson Teak launched its new line of products: Synthetic Rattan, Aluminum, Stone, and indoor furniture products – with the belief that outdoor furniture has the same important element as indoor furniture.

To speed up our indoor furniture collection being marketed in the USA, we work together hand in hand with local manufacturers and designers to complete our product range from dining table set, living room set, bedroom set, to loose items. We supply hospitality industries, commercials need as well as wholesalers.

Innovation, comfort, functionality & durability are what you will experience from each of our product. Our spirit of creation is beyond doubt. Each product is earnestly designed and thought out before blueprints are handed to the skilled carpenters to create the prototype; style, dimension, finishing color and the intricate small details are always carefully considered. Design, styles, colors, and the choice of materials excite and freshen the world-wide market of furniture. Collaboration with our vendors on texture, color and hardware development has enabled us to create more warm and beautiful products.

We also work with designers, contractors & architects to develop new designs to supply their customers' need. We listen carefully and professionally to our clients' inputs and cater when necessary. All this within our company philosophy that as a manufacturer, believe that their dreams and lifestyles are within their design. To realize their creative vision, we give them support, the flexibility and access to choose their own materials, dimensions, and colors to fit with their projects.

The options **Anderson Teak** offers are wide range including materials of; teak wood, mahogany wood, other hardwoods, powder coated aluminum, stainless steel, metal sheet, iron, limestone, synthetic wicker and the list goes on and on as we keep modernizing with new materials to produce only the finest and durable furniture products for our world-wide customers.

It is our company policy to always think about product quality and "Green Environment". We use toxic-free and lead-free materials. Our products use water-base toxic-and-lead-free material for our Chapman Collection and reputable brand name paint for our powder coating aluminum furniture products. We also comply with California Prop 65 which known as the Safe Drinking Water and Toxic Enforcement Act of 1986.

To date, **Anderson Teak** has collaborated with business partners from many sectors of industries supporting their dreams, brands, and projects by producing their designs for their clients. Industries like hotels, resorts, shopping centers, apartments, condominiums, real estates, café, spas, restaurants, retail stores, country clubs & golf courses, wineries, universities, churches, cruise ships, hospitals, libraries, governments' projects and many more are our proud foundation of our success.

At this opportunity, we would like to propose a strategic business partnership as a manufacturer to be part of your main indoor / outdoor furniture supplier for your company. We are very flexible in developing new designs with private labeling, an important part of success to any business. Do not hesitate to contact us for any questions or more available services that we can provide to your company - where your needs, our service, and our products will always be of the highest priority.
