

## **Ink Selection Guide**

[www.wryt365.com](http://www.wryt365.com)

### **Ballpoint Pens**

- **“Parker” style ballpoint**
- The most commonly used ballpoint ink cartridge in the world.
- Also referred to as a “G2 ballpoint” size, not to be confused with the “Pilot G2” which is a different size.
- Manufactured in different viscosities from thick ink (like a “Bic” pen) to very smooth, thin ink (Schmidt EasyFLOW 9000)
- Available in multiple colors (black, blue, red, green, purple, magenta, turquoise)
- Widths: Broad, Medium, Fine, Extra Fine Needle Point
- We recommend the following brands:
  - o Schmidt EasyFLOW 9000, Schmidt P900
  - o Monteverde regular ballpoint and gel
  - o Parker Quink (Gel)
  
- **“Cross” style ballpoint**
- Available in multiple colors (black, blue, red)
- Widths: Broad, Medium, Fine
- We recommend the following brands:
  - o Cross
  - o Monteverde

### **Rollerball Pens**

- **“International Standard” Rollerball**
- Available in multiple colors (Pilot G2 Gel has the broadest color range, including 14 different colors like pink, red, green, purple, burgundy, brown, orange and turquoise)
- Widths: Broad, Medium, Fine, Extra Fine, Ultra Fine
- We recommend the following brands:
  - o Schmidt 888/5888 & FineLiner series
  - o Schneider
  - o Monteverde
  - o Pilot G2 Gel

### **Fountain Pens**

- **“Standard International”**
- Use bottled ink with Standard International Converter (Schmidt K5)
- Can use cartridge ink (Standard International Long and Short)
- Available in virtually any color
- We recommend the following brands:
  - o Pilot Iroshizuku
  - o Waterman
  - o J. Herbin
  - o Noodler’s
  - o Kaweco
  - o Diamine
  - o Pelikan
