## **PROTECTS**

SilverClear™ effectively fights the bacteria, mold and fungi that cause odor, discoloration and degradation of your textile, thereby prolonging its useful life. SilverClear™ will help to keep your product fresh, clean and odor-free and your customers happy.

## **DURABLE**

SilverClear™ was created to be effective throughout the life of your product. Properly applied and cured, SilverClear™ continues to deliver outstanding performance through as many as 100 industrial washings.

## **KEEPS WHITES WHITE AND COLORS BRIGHT**

Tests have shown that SilverClear™ will not affect the color of textiles, keeping colors vibrant and whites their whitest. SilverClear™ will also not affect the hand of your product.

## **COMPETITIVE ADVANTAGE**

SilverClear's features will add value to your products and allow them to stand out from your competitors'.

## **COST-EFFECTIVE**

SilverClear™ is easily applied to textiles during the finishing stages, and is compatible with most other treatments. No additional processing steps are required.

## **VERSATILE**

SilverClear™ can be applied to fibers, yarns, textile fabrics, filtration materials and woven and non-woven fabrics.

## **EPA-REGISTERED: ECOLOGICAL**

Unlike other products on the market that typically make use of harsh solvents such as acids, alcohols and ammonias, SilverClear™ uses pure, filtered water. This potent ecological formulation has been duly registered with the US EPA.

## **PROVEN PERFORMANCE**

SilverClear™ has been tested on a wide range of textiles and fibers using methods developed by the American Association of Textile Chemists and Colorists (AATCC), amongst others.

AATCC 147 testing has consistently demonstrated that gram-positive and gram-negative bacteria are eliminated when in contact with SilverClear™ treated materials.

AATCC 100 testing has shown that more than 99.9% of bacteria is eliminated within the first minute and outstanding protection can be assured through as many as 100 launderings.

**IMPORTANT NOTICE** - SilverClear™ is offered for sale in various countries around the world, and should only be distributed, sold and used in accordance with local regulations, which may also regulate claims that can be made for the treated products. SilverClear™, its distributors and agents, cannot be held responsible for any breach of local laws or regulations – if you have any questions, please seek regulatory advice.
