Our App Gives You Complete Control From Anywhere

HOMI transforms your home into the smart home of the future by connecting all the essentials through an array of in-house and partnered devices.

Your End-To-End Smart Home Solution

Researched and developed in Hong Kong and have serviced over **100+ homes**

Compatible with **200+ smart devices**

Easy to install **customizable smart light switch**

- Silver
- Champagne
- White

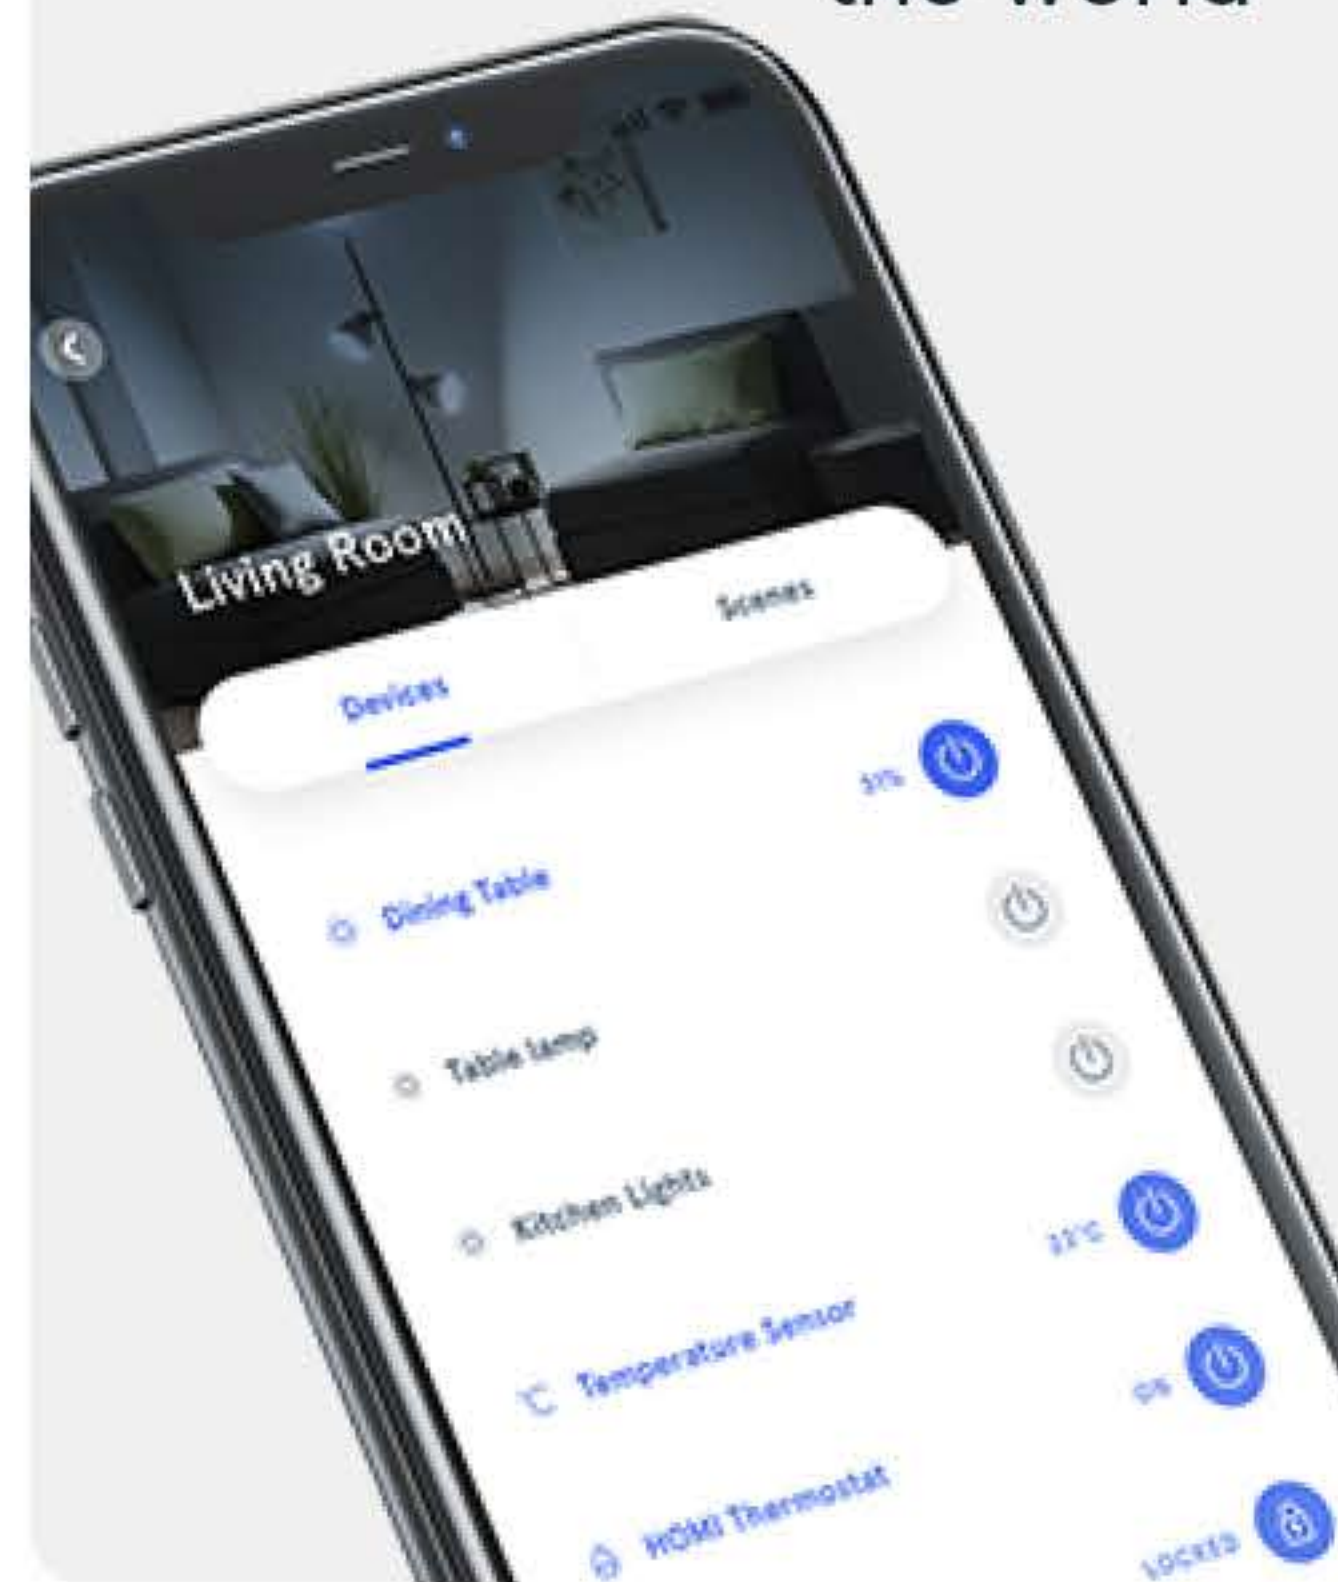

Control home devices with **Motion Sensor**

220V

Supports voltages in Hong Kong

Control your lights from anywhere in the world

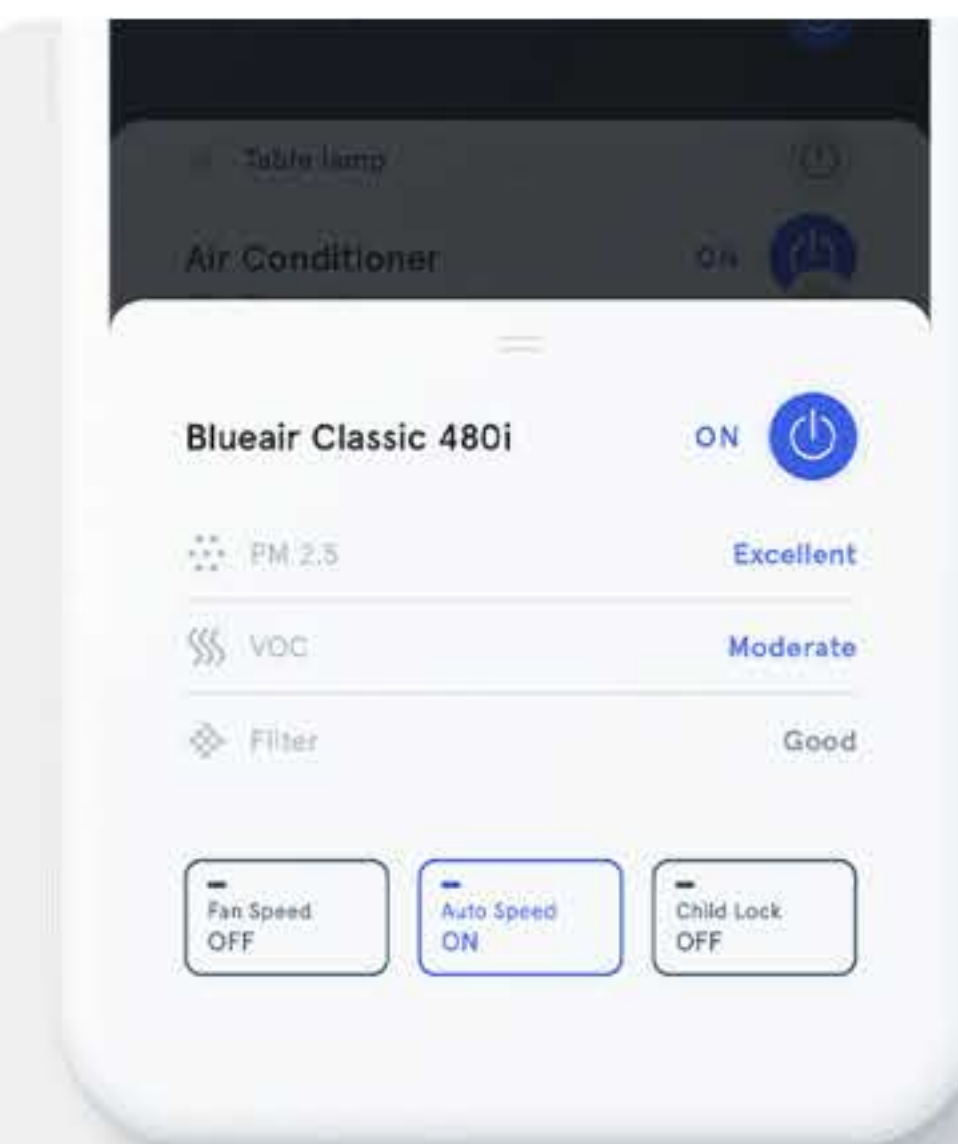

Control your smart devices with your voice

Works with any **air conditioner** with a remote control

2.7cm x 5.5cm

Air purification for improved air quality

Single app for all smart home devices

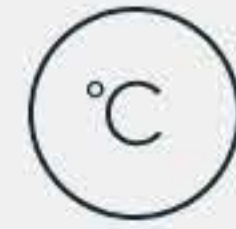

Your SmartHome Needs a Brain

The HOMI Kranium is a connected smart hub that allows you to control all the essential features of your home. Acting as the brain of the SmartHome, the Kranium can connect up to 200 devices wirelessly on the ZigBee Mesh Network. It's easy to setup so that it can be controlled from anywhere with your smartphone or through voice.

Model HOMI Kranium
Size 75 mm (w) * 60mm (h) * 23mm (d)
Operation Temperature 0°C - 50°C
Two UART interfaces Up to 200+ devices

Supported Platforms iOS / Android
UART Baud Rate 57,600
Operation Frequency 2.4GHz
Range 100-200M, ZigBee Mesh Network
Operation Voltage 5V DC

Come Home To A Place That's Expecting You

Transforming the way you communicate with your home. Have all your products work in unison with your daily routines.

Build Your Connected Home

The HOMI IoT Ecosystem can control HOMI devices or find third party connected devices and interact with them seamlessly.

Compatible With 200+
Smart Devices And Services

Let Scenes Control Do The Work

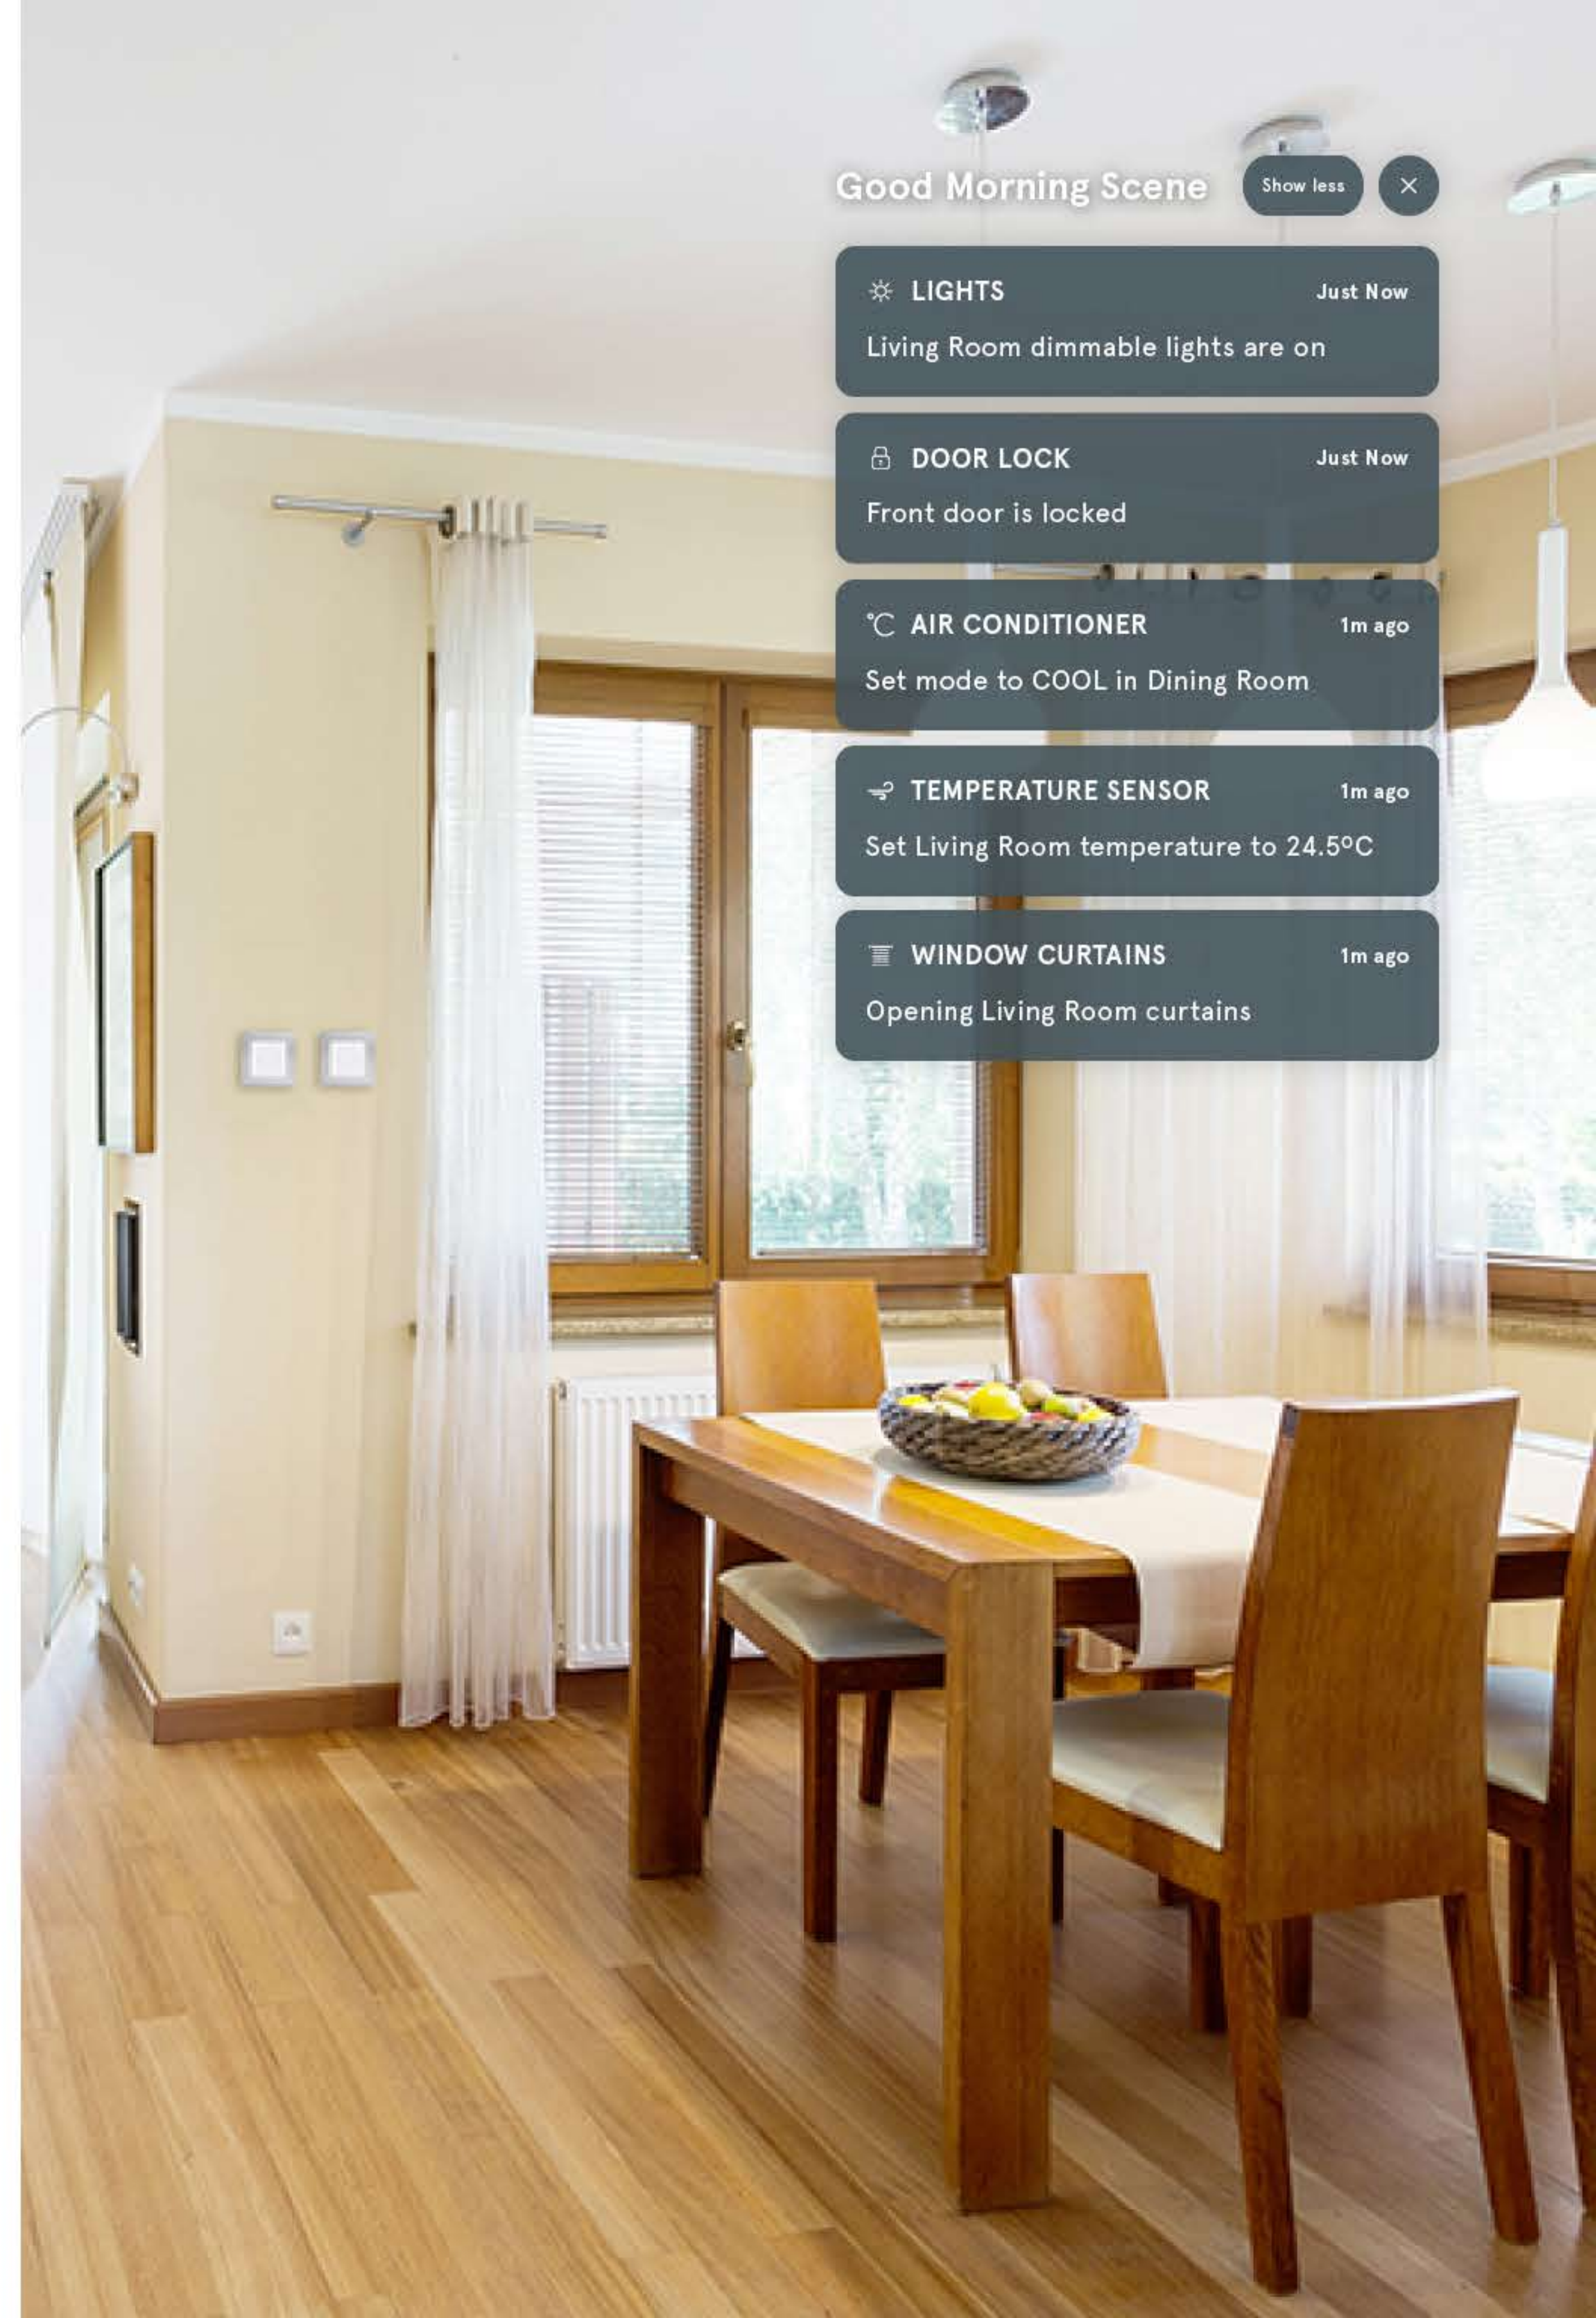

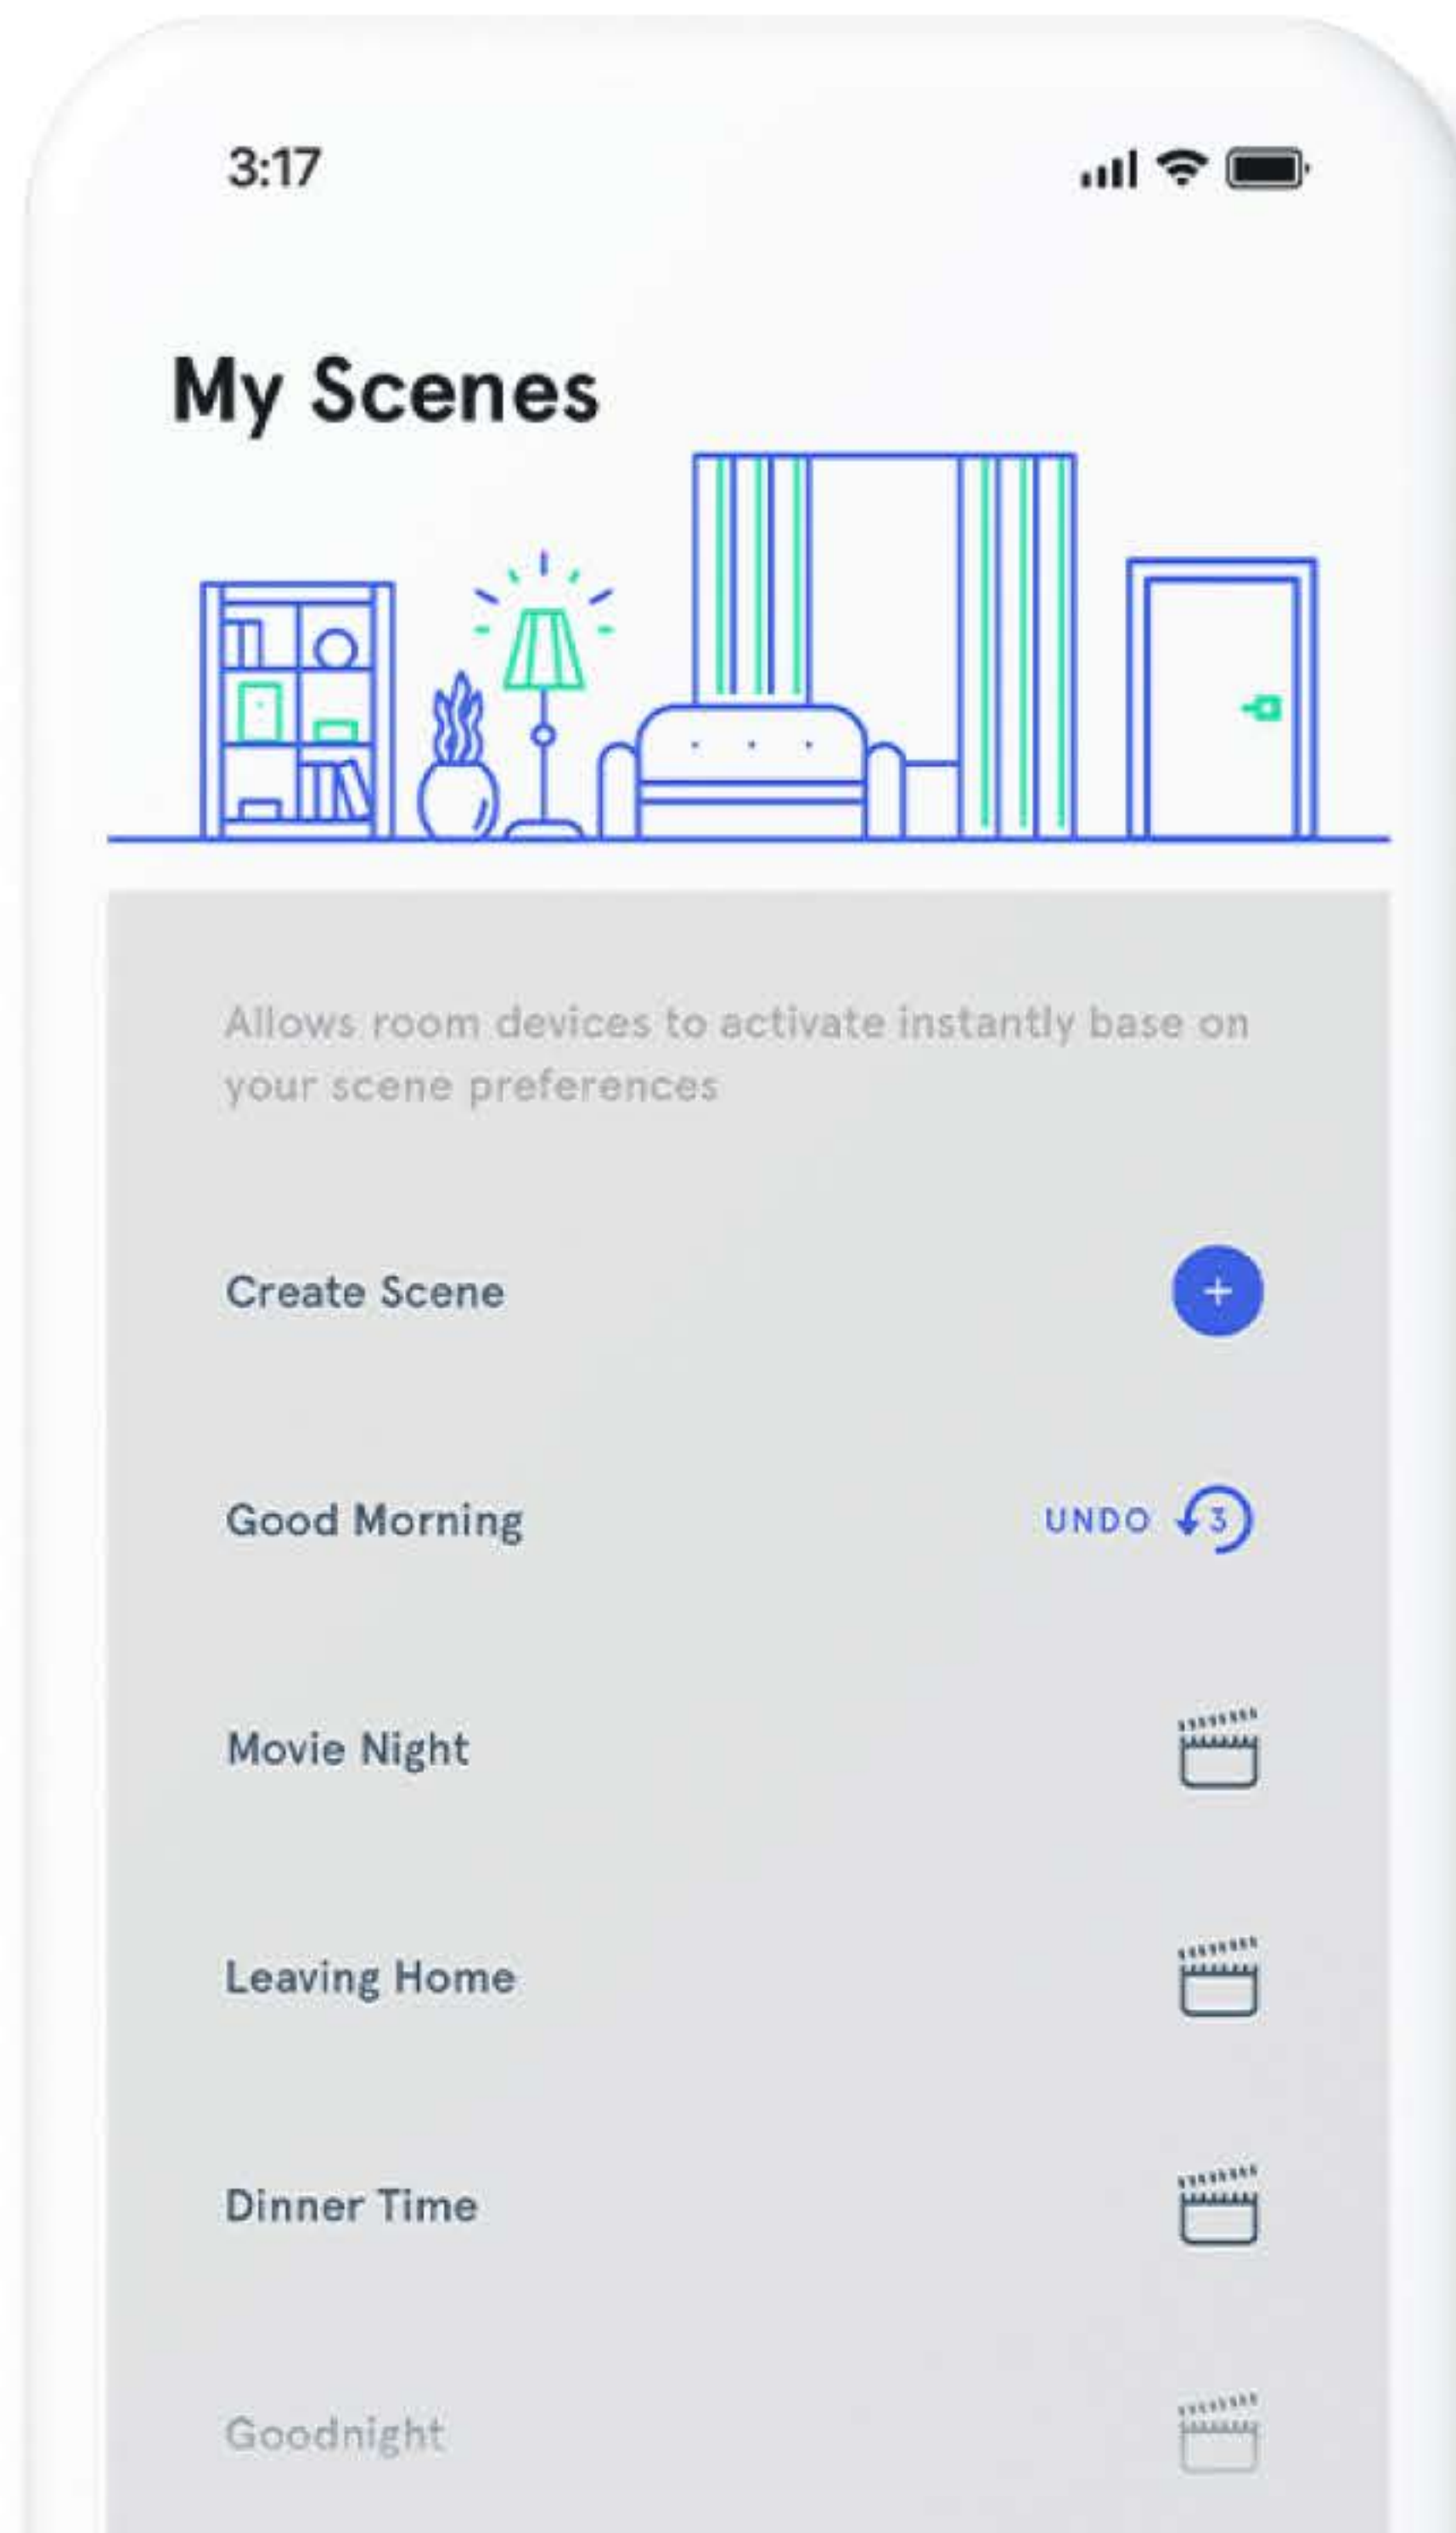

Set the perfect mood with home scene

Easy setup with one-touch scene activation

Allows multi-device scene scheduling

Smart Lighting Made Easy

Instead of replacing each light bulb, all you need to do is just replace your traditional light switches with our designer smart switches. Supports non-dimmable and dimmable lighting.

Customize Your Home

HOMI Lighting includes a vast range of switches, panels, and modules to provide maximum flexibility for any home.

Smart Lighting 1 GANG / 2 GANG / 4 GANG Switch

Model No. AAWLC1 / AAWLC2 / AAWLC4

Switch Connection 1 GANG, 2 GANG, 4 GANG

Size 85 mm (w) * 85mm (h) * 41mm (l)

Load (cos 0=1) 10Ax1 / 10Ax2 / 5Ax4

Operation Temperature 0°C - 40°C

Operation Frequency 2.4GHz

Operation Range 100-200M, ZigBee Mesh Network

Fuse Built-in

We provide switch frames ranging from

Silver

Champagne

White

Energy Savings Taken To A New Level

Monitor energy consumption of each lighting group and save up to 30% on your electricity bill.

Create The Perfect Mood

Use scene panels to trigger more than just lights – also trigger your music, temperature, and shades with the touch of a button

Smart Lighting 1 GANG / 2 GANG Dimming Switch

Model No. AAWD1 / AAWD2

Switch Connection 1 GANG, 2 GANG

Size 85 mm (w) * 85mm (h) * 41mm (l)

Load (cos 0=1) 400Wx1 / 400Wx2

Operation Temperature 0°C - 40°C

Operation Frequency 2.4GHz

Operation Range 100-200M, ZigBee Mesh Network

Operation Voltage 110V~230V AC 50Hz

Functions & Control ON/OFF, Dimming UP/DOWN

Loading LED, Incandescent Bulbs, Halogen Lamp

Never Worry About Losing Your Keys Again

 igloohome

With igloohome, be assured that only the ones you welcome can enter your home. Time-sensitive PIN codes and Bluetooth keys let you decide for how long you want to allow access for.

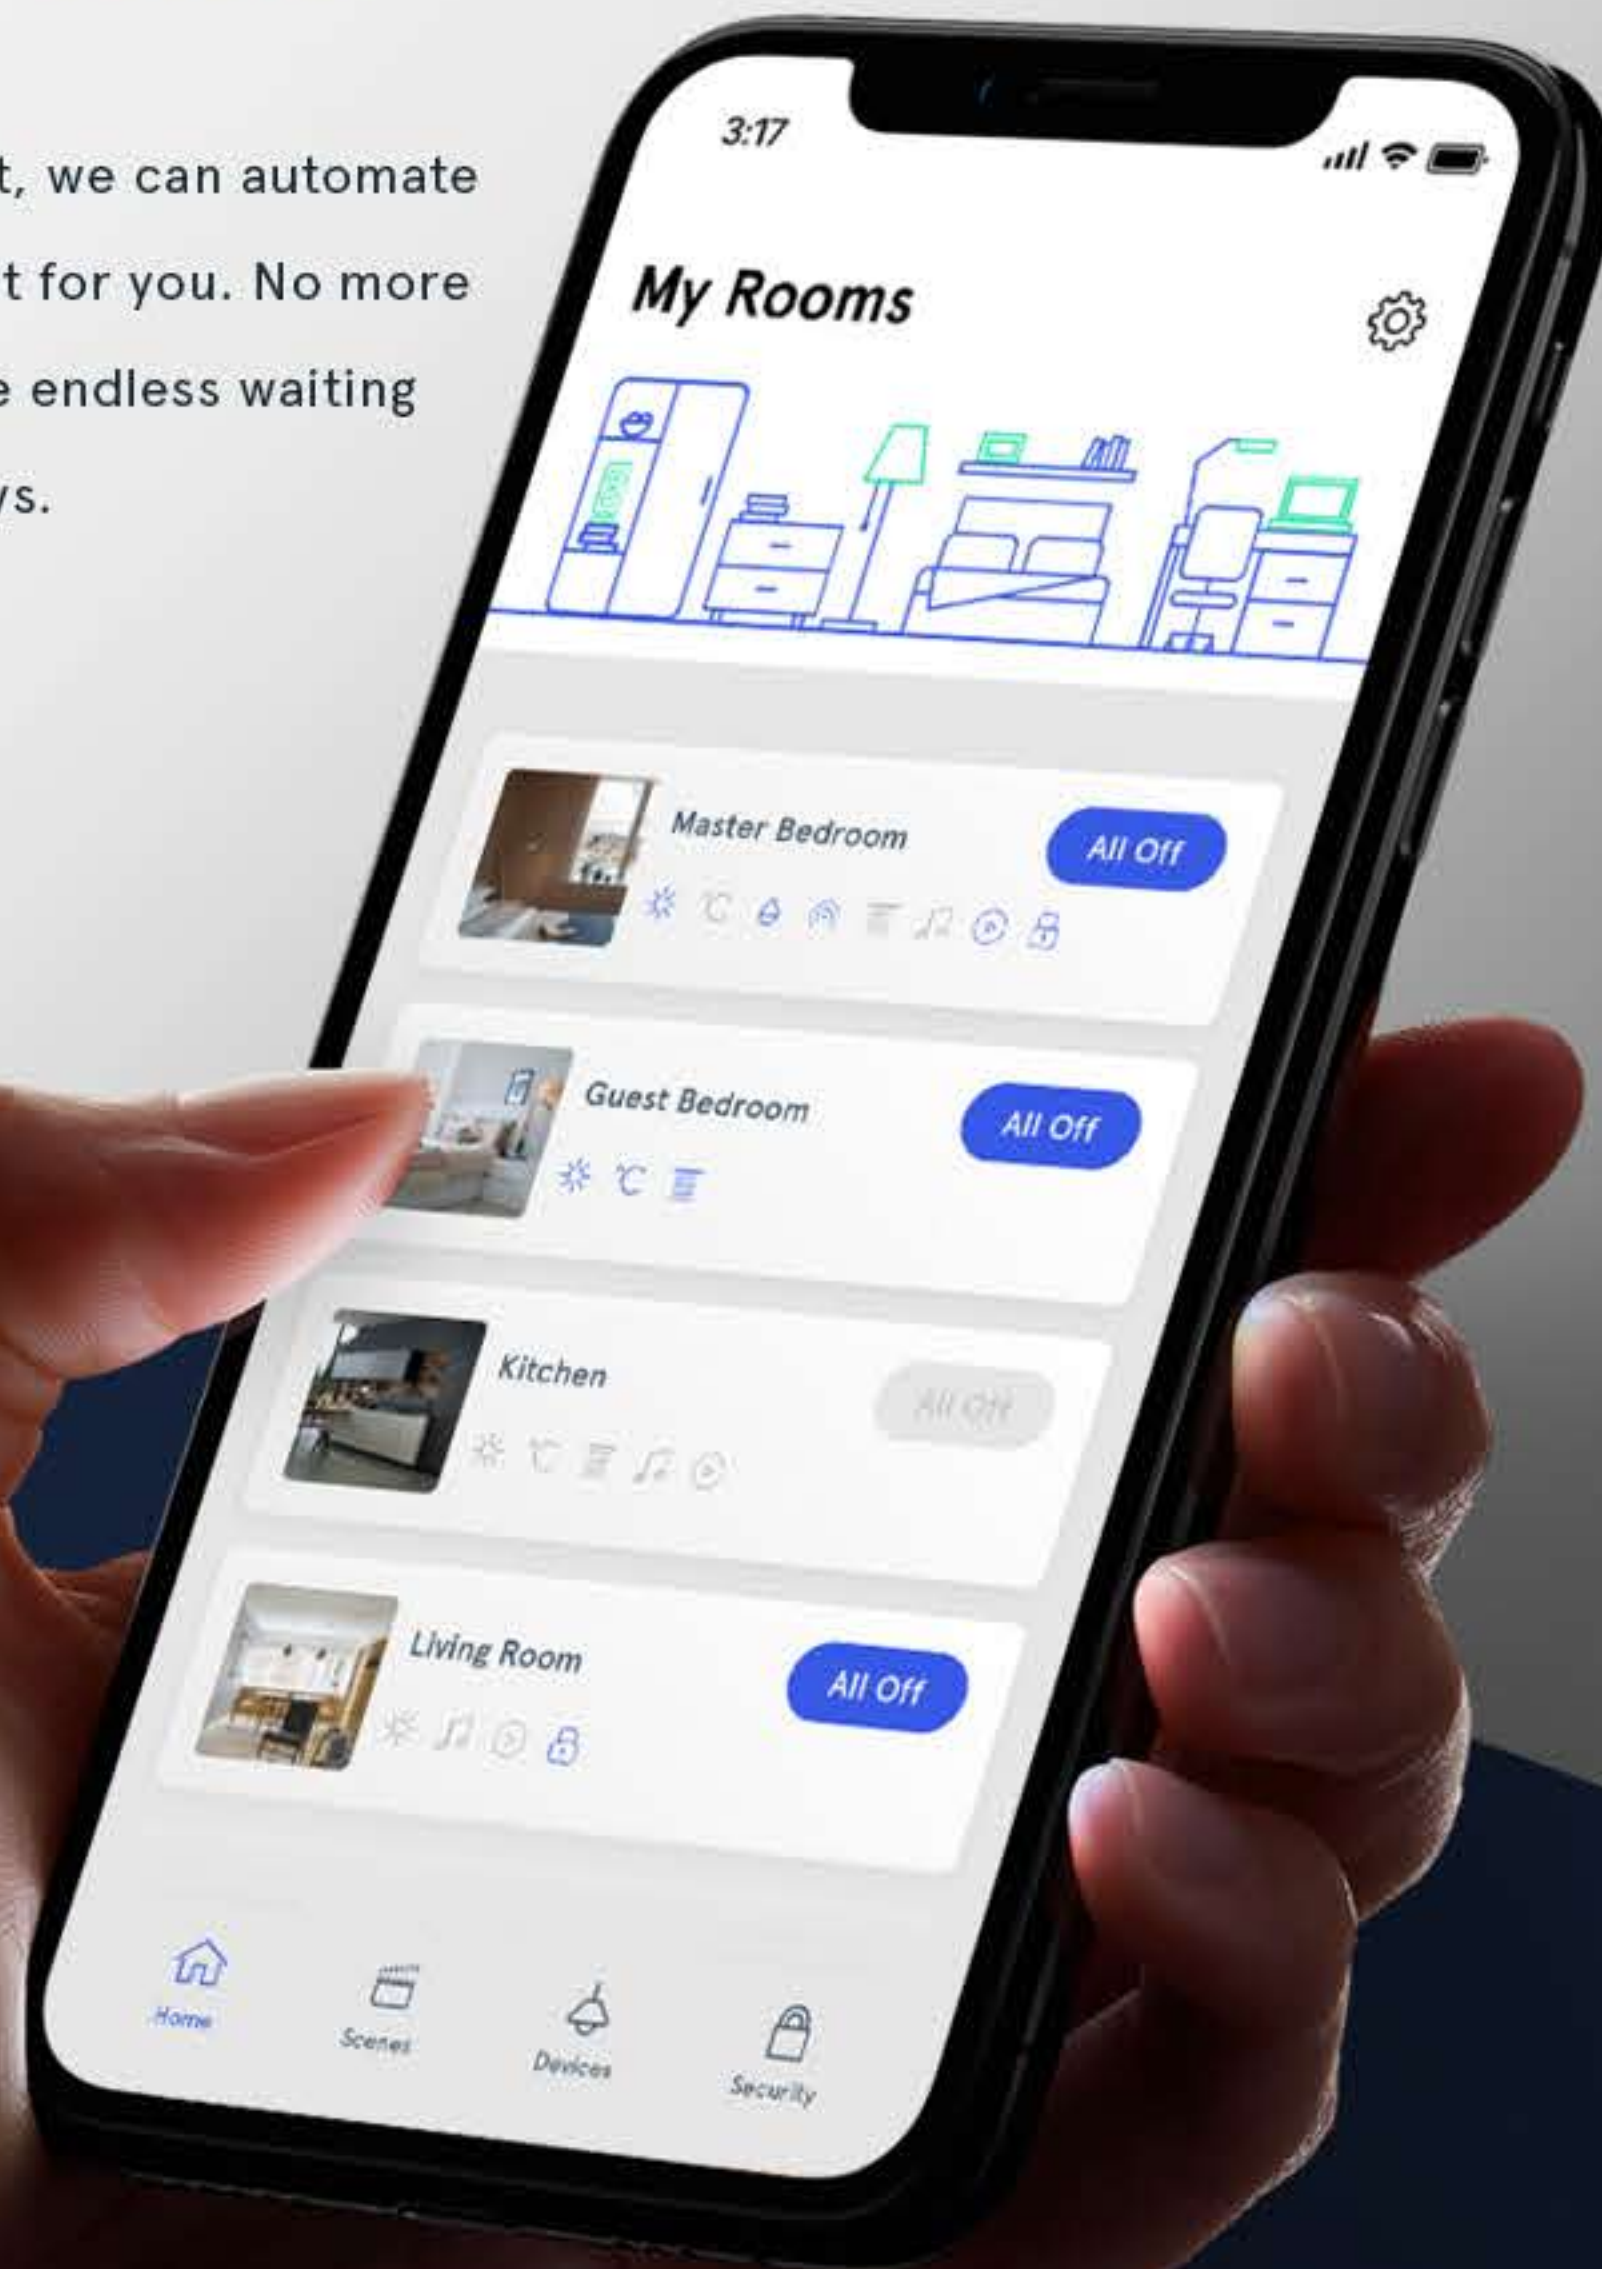

Multiple Entry Modes

Unlock with a PIN code, a key card, or a Bluetooth key on your smartphone. Different modes of entry are offered for flexibility of access. The physical key is still available as a backup.

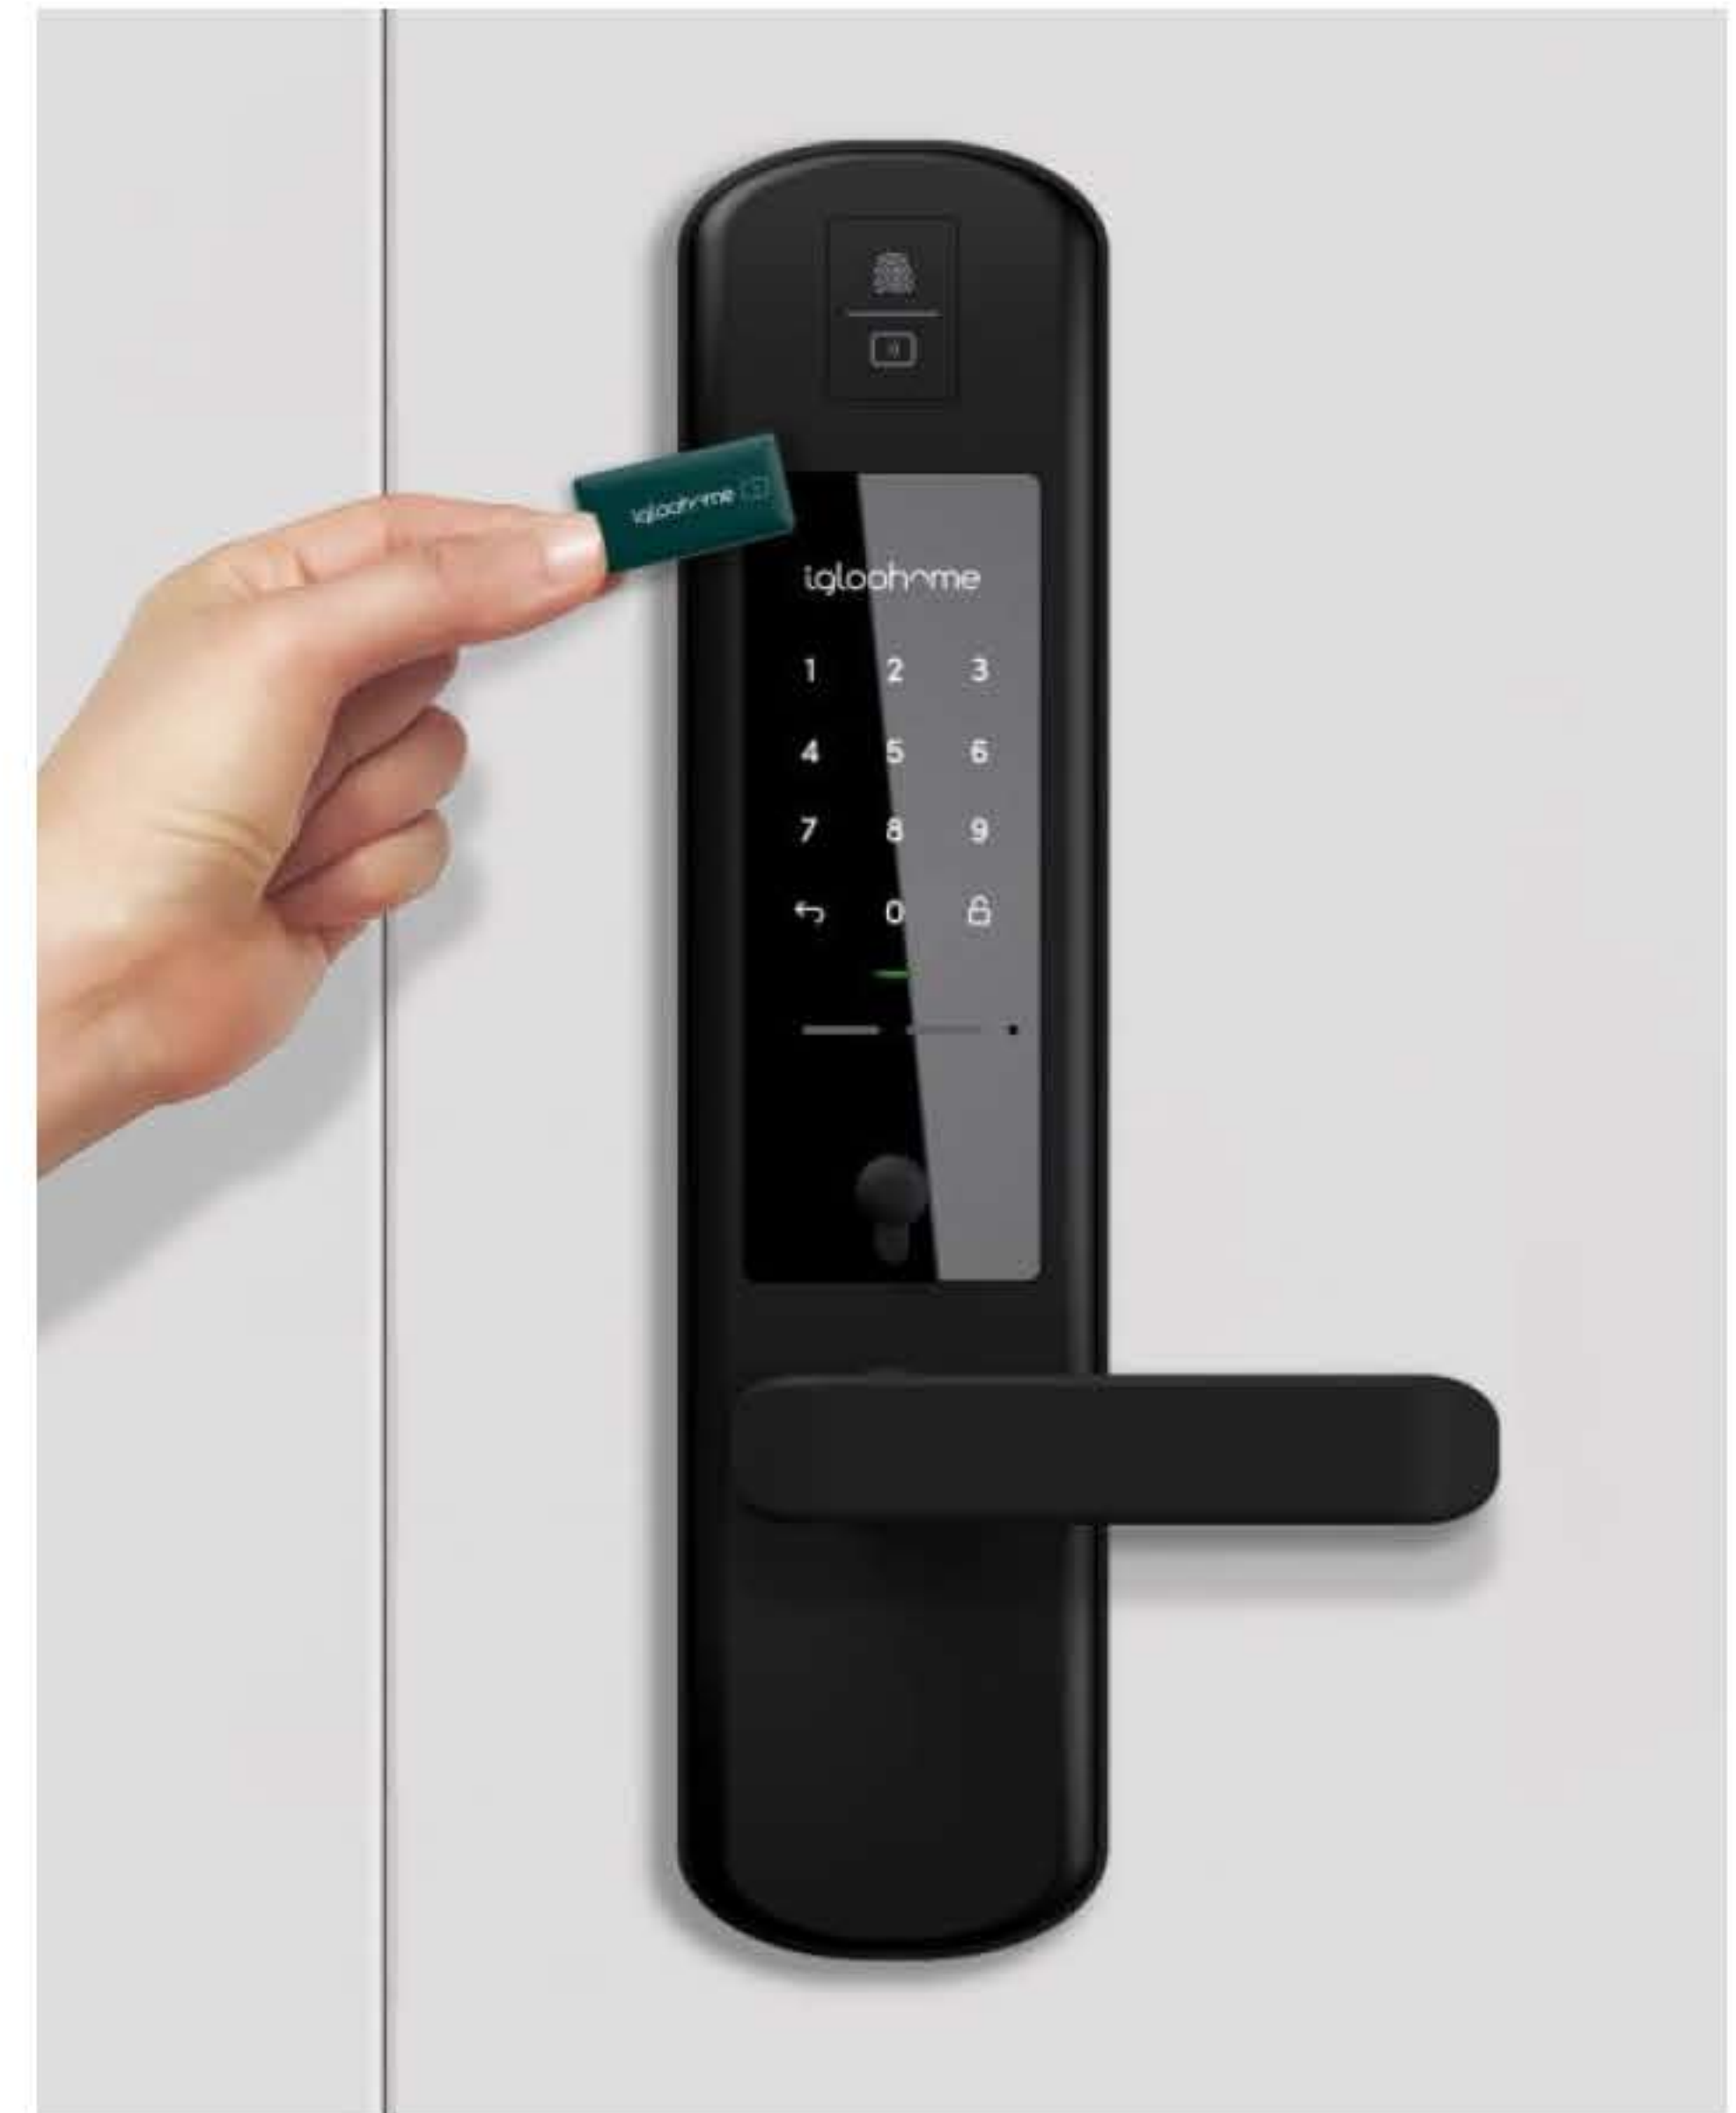

Make Home Access Safer And Smarter

If you're an Airbnb host, we can automate check-in and check-out for you. No more lock-outs, and no more endless waiting for the handover of keys.

SAMSUNG igloohome

The Convenience of Keyless Access

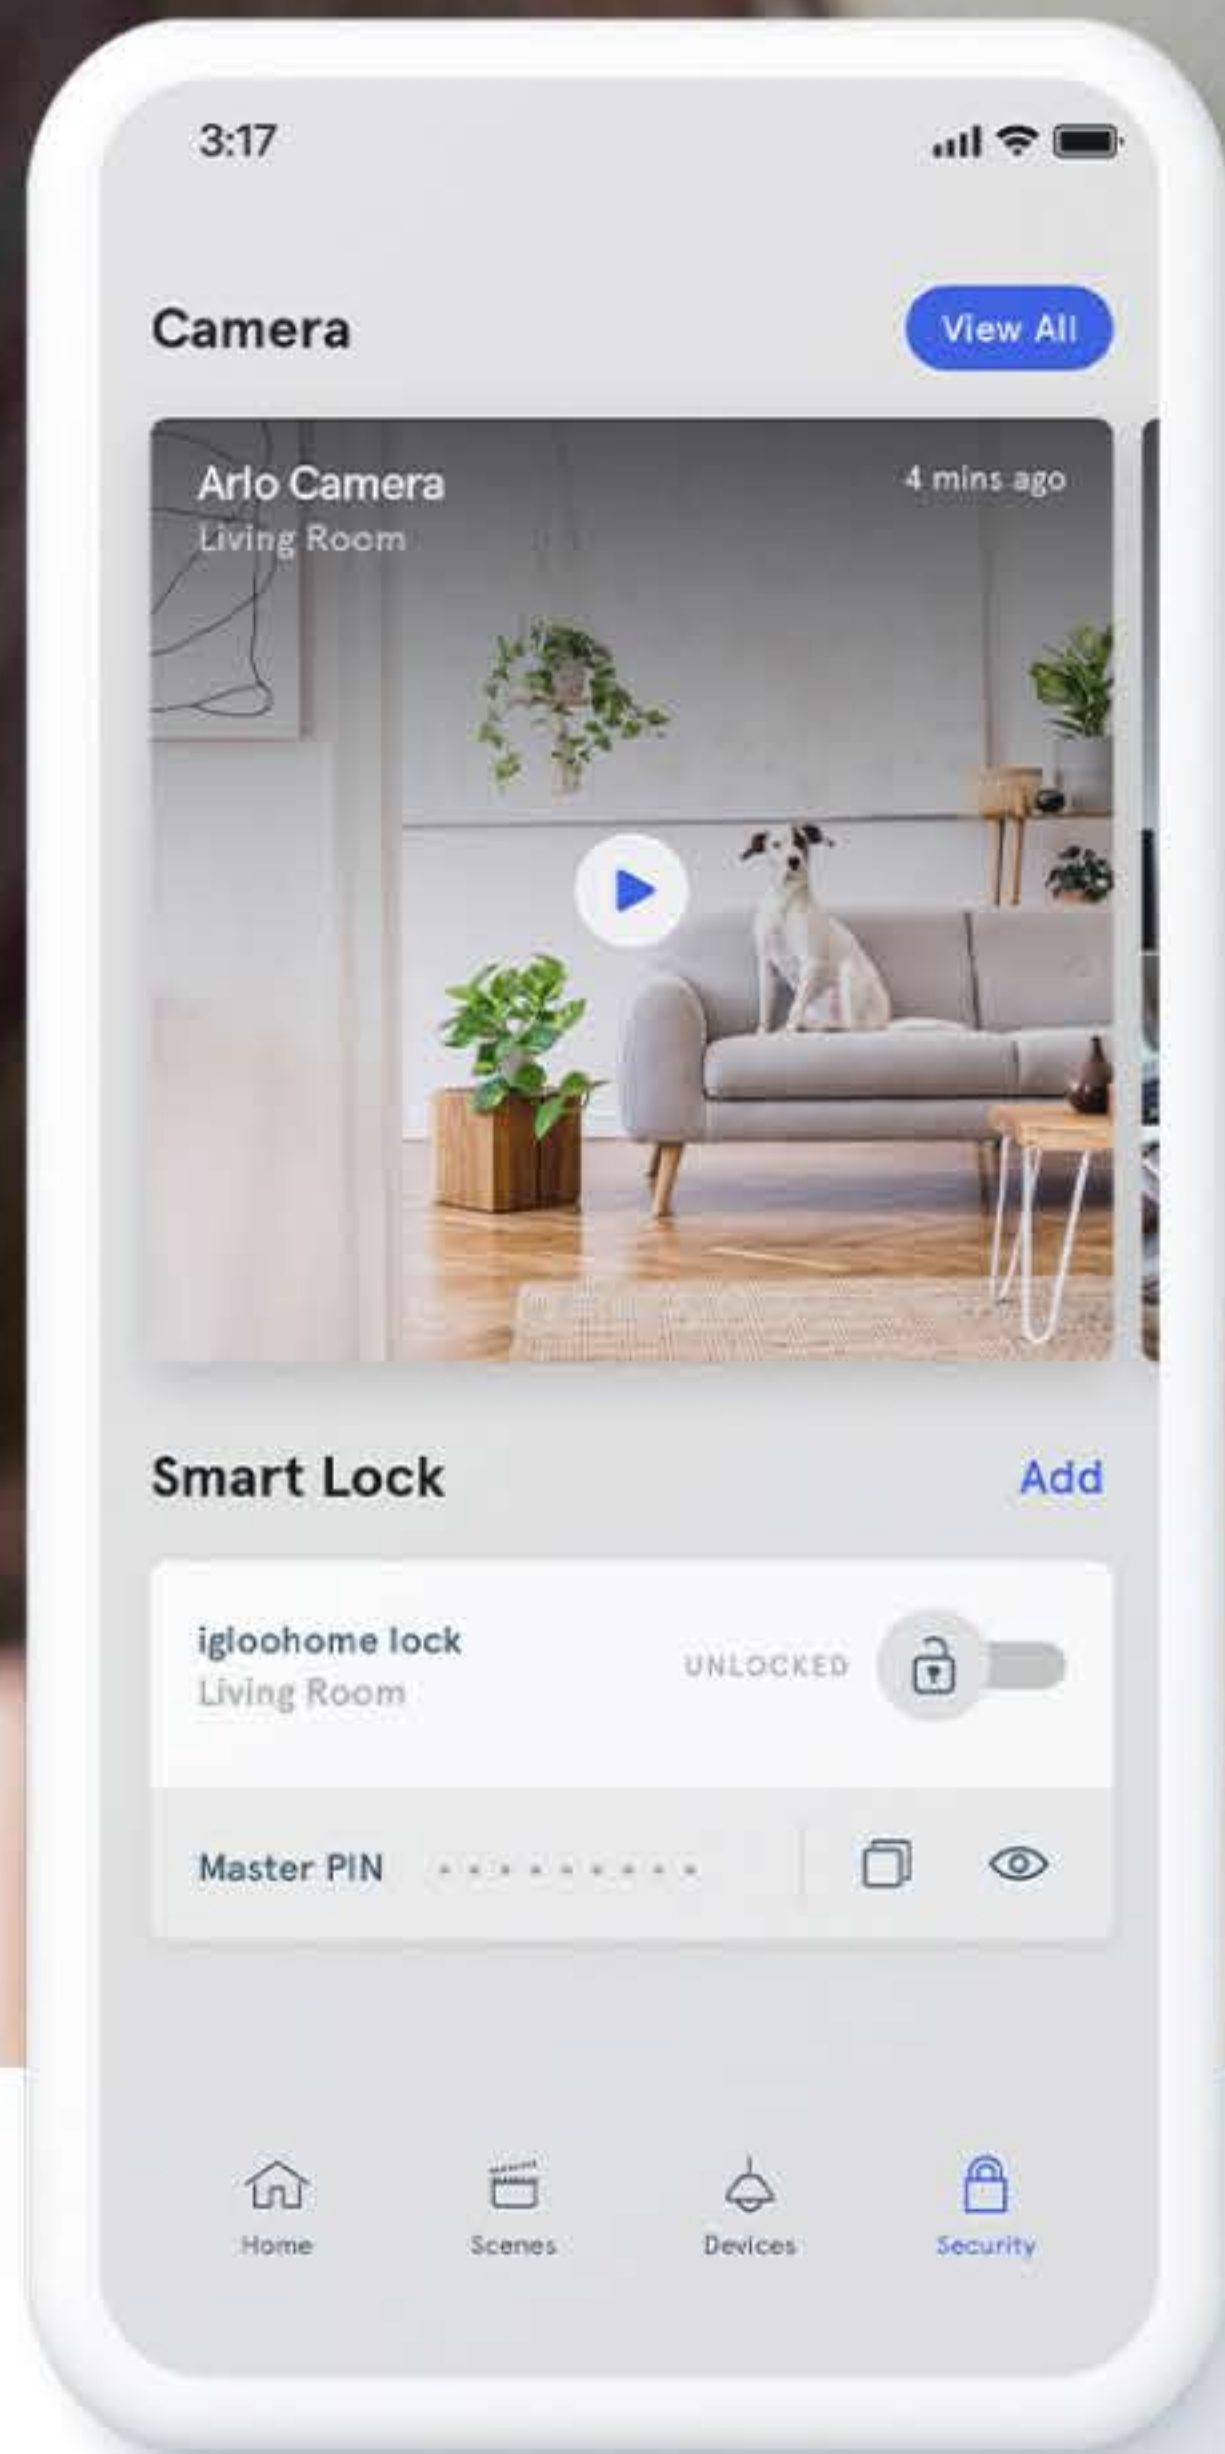

No more hassle of locating forgotten keys and replacing missing ones.
No more frustration of accidental lock-outs. No more fumbling for keys.

World's First Wireless Camera

Technology Voice Match technology

Sensors Capacitive touch controls (three touch areas)

Processor Quad Core A53 1.8 GHz

Control Your Air Conditioner From Anywhere, Anytime.

Set the temperature of your home to your desired level before you come home. Our Smart AC Module works alongside our temperature sensors that collect data on the room temperature and humidity for optimal comfort even while you're asleep.

Create Schedules And Triggers

Set schedules and triggers to control your air conditioner remotely

Model Smart Air Conditioner Module
Size 27mm (width) * 55mm (height) x 11mm (length)
Product Lifetime 1 year with 2 x CR2032 batteries
Battery life reporting

Installation 3M tape to mount device
Compatibility 10,000+ Air Conditioners
Delay Time 1-2 seconds
Operation Range 10-15 meters Open Area (Short Range)

First Battery-Operated Air-Con Module

Up to 2-year battery life

Supports 80% of remote controlled air-conditioners

Set schedules and triggers on the HOMI mobile app

Compatible with HOMI Temperature and Humidity Sensor

Never Wake Up Cold At Night, Again

HOMI has created an intelligent thermostat that uses multiple sensors to feed temperature data to let you regulate the temperature of your home. It works like any thermostat, it closes the relay contact when cooling is required and opens it when cooling is not required.

Plug & Play

Temperature sensors can be set up within seconds. Simply place in desired areas to regulate room temperature. Set the ideal temperature with ease on our mobile app.

Model Smart Air Conditioner Module

Size 27mm (width) * 55mm (height) x 11mm (length)

Product Lifetime 3 years with 2 x CR2032 Batteries (520 mAh)

Reports every 10 mins / Battery life reporting

Installation device mount provided

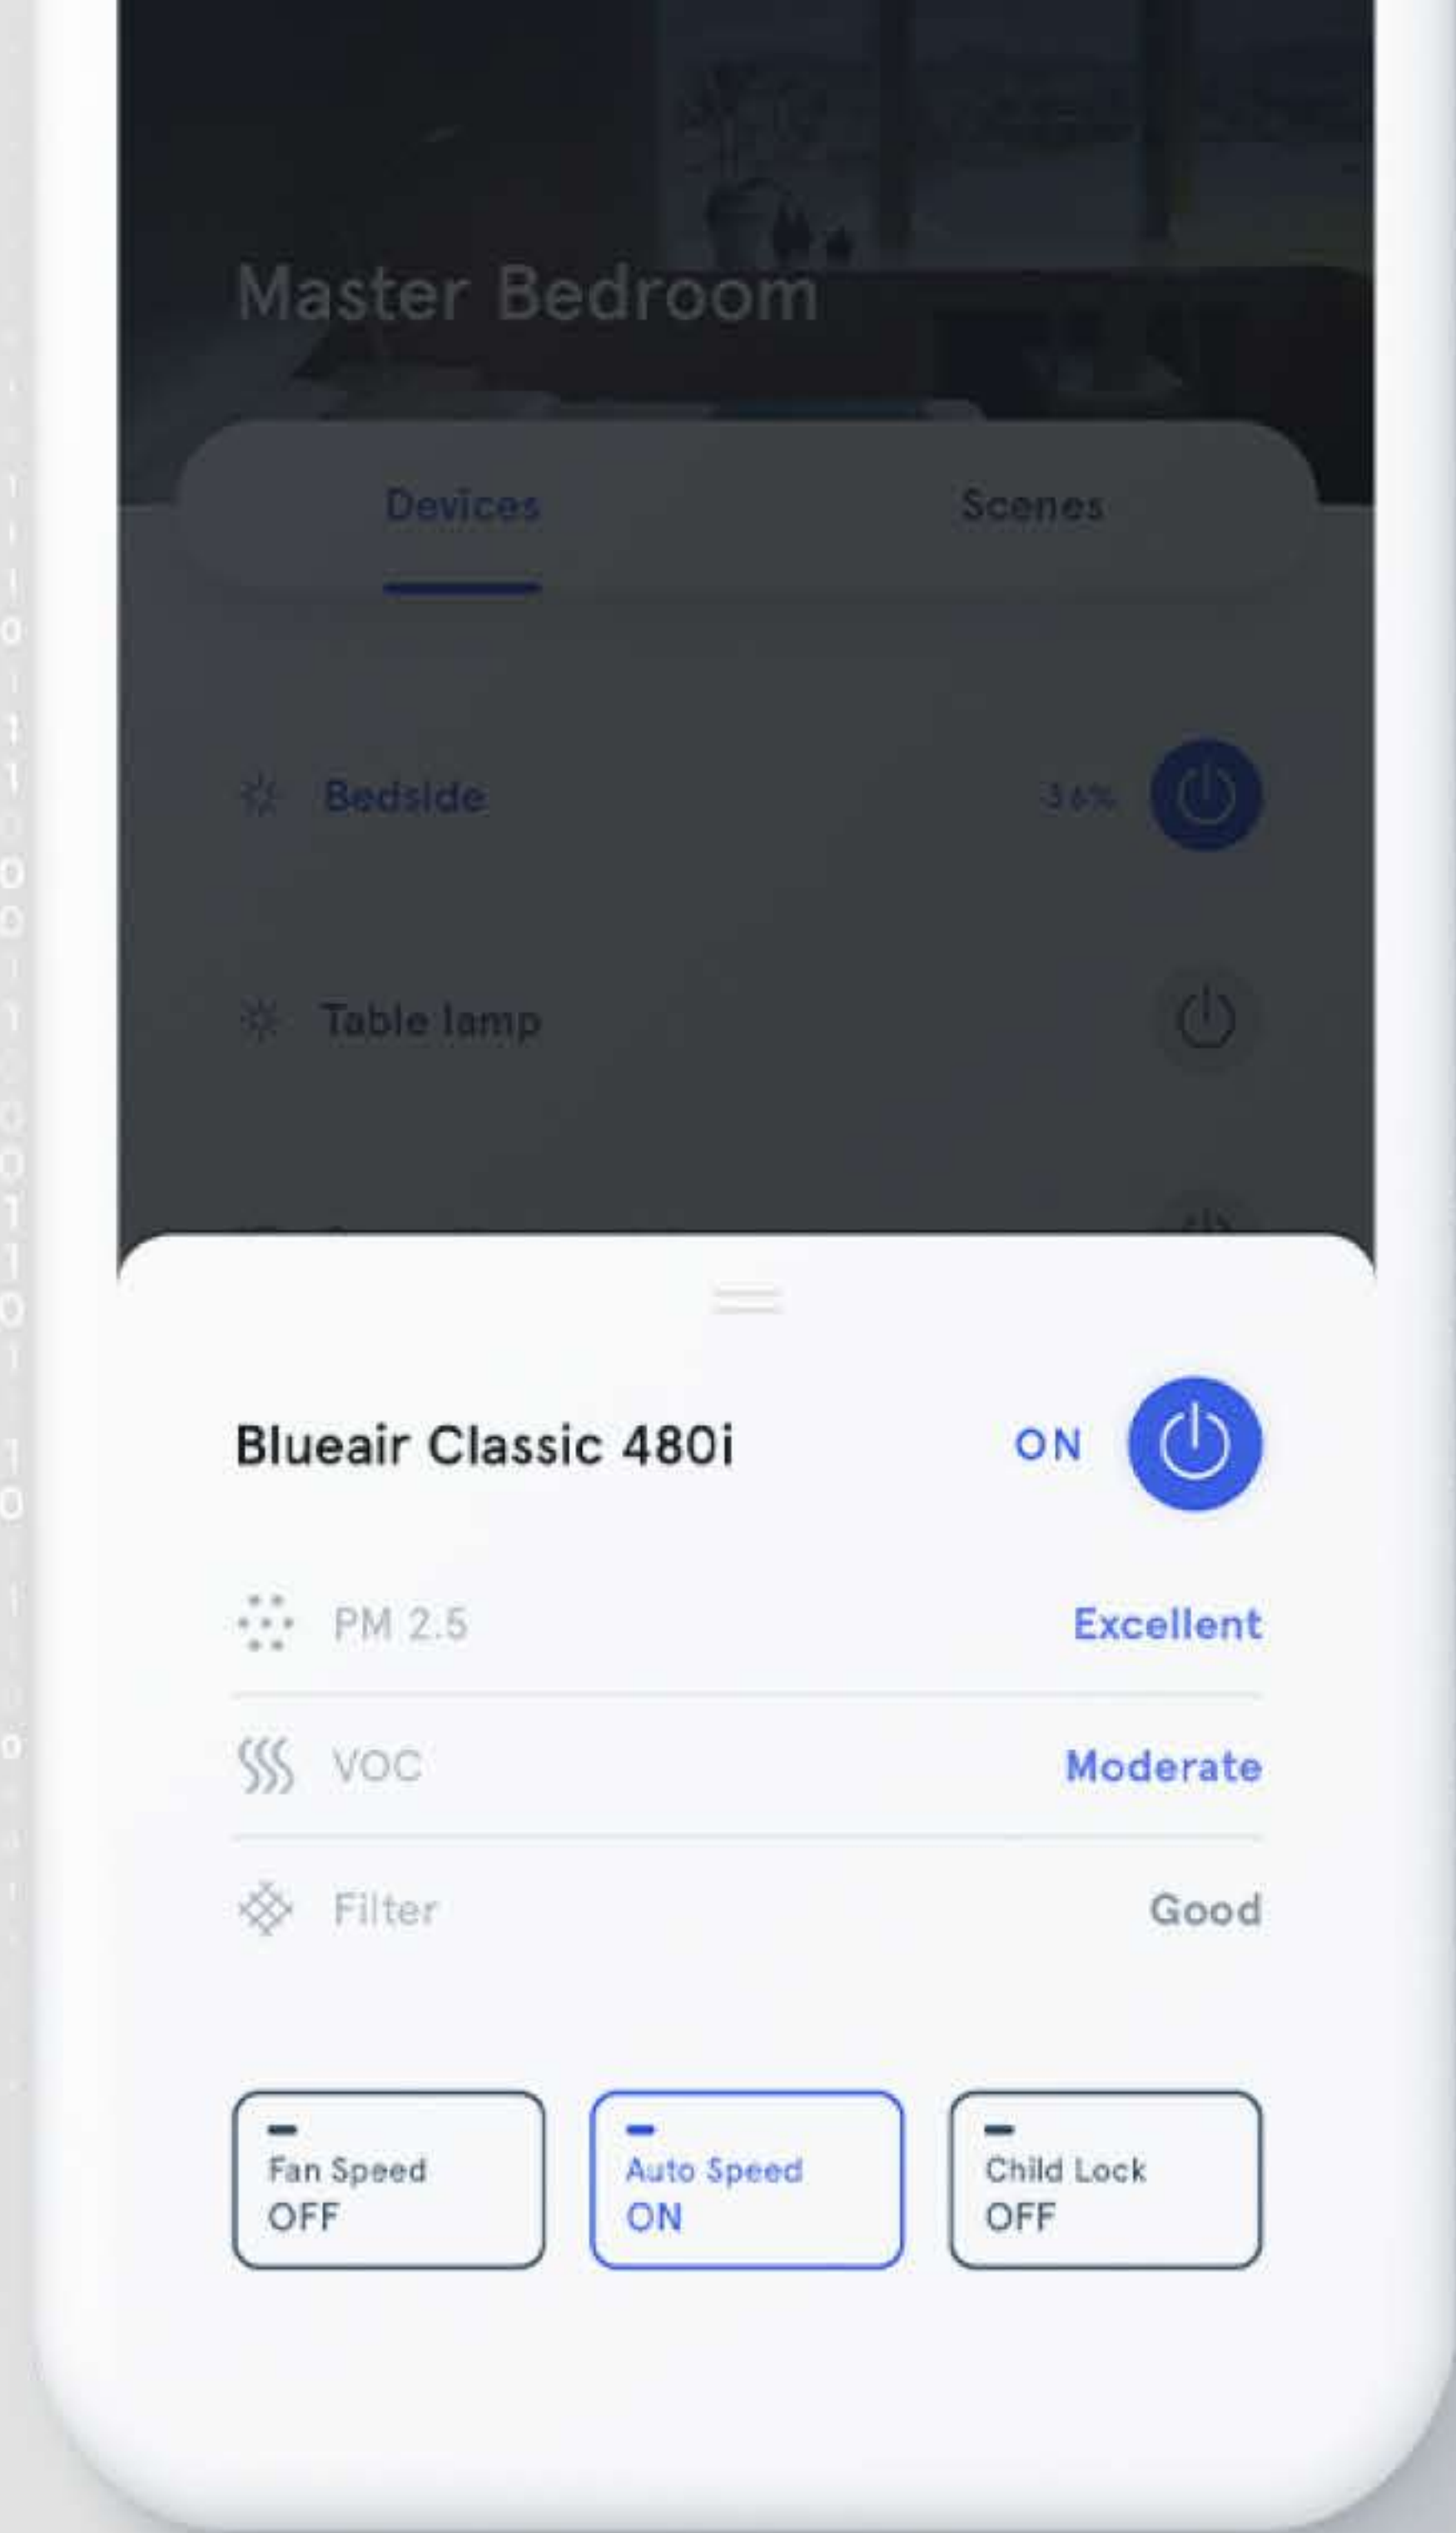

Operation Range 10-15 meters Open Area (Short Range)

Air Purification For Improved Air Quality & Wellness

HOMI's Air Purification system helps improve air-quality by removing allergens, toxins, pathogens, pollens, and other pollutants from the air.

Electrostatic charge and filtration technology

Removes particles as small as 0.1 Micron in air

Eliminates viruses and bacteria

homi | Smart Fan

Personalize Your Fan

dyson

Dyson smart air purifying fans work with HOMI to give you complete control from anywhere. Keep your home comfortable while conserving energy.

Smart Enough To Turn Up, Turn Down, And Turn Off

Keep your fan temperature exactly where you want it. Control your fan with the HOMI app or with voice commands - whether you're home or away.

Adjust the fan with a Smart Assistant, Hands-Free

HOMI works with any fan that has IR control. Tell your voice assistant to change the fan speed with a simple voice command.

Detects Presence From 30 Feet Away

Automatically detects presence in a room, allowing you to save energy and create personalized actions based on room occupancy.

Hands-Free Home Control

HOMI's motion sensors can trigger lights as you enter your home or walk into a room at night. Our motion sensors keep track of movement in rooms and will turn lights on or off accordingly.

Model Smart Motion Sensor

Size 43mm (width) * 70mm (height) * 16mm (length)

Product Lifetime 4 years with 2 x AAA Batteries (800 mAh)

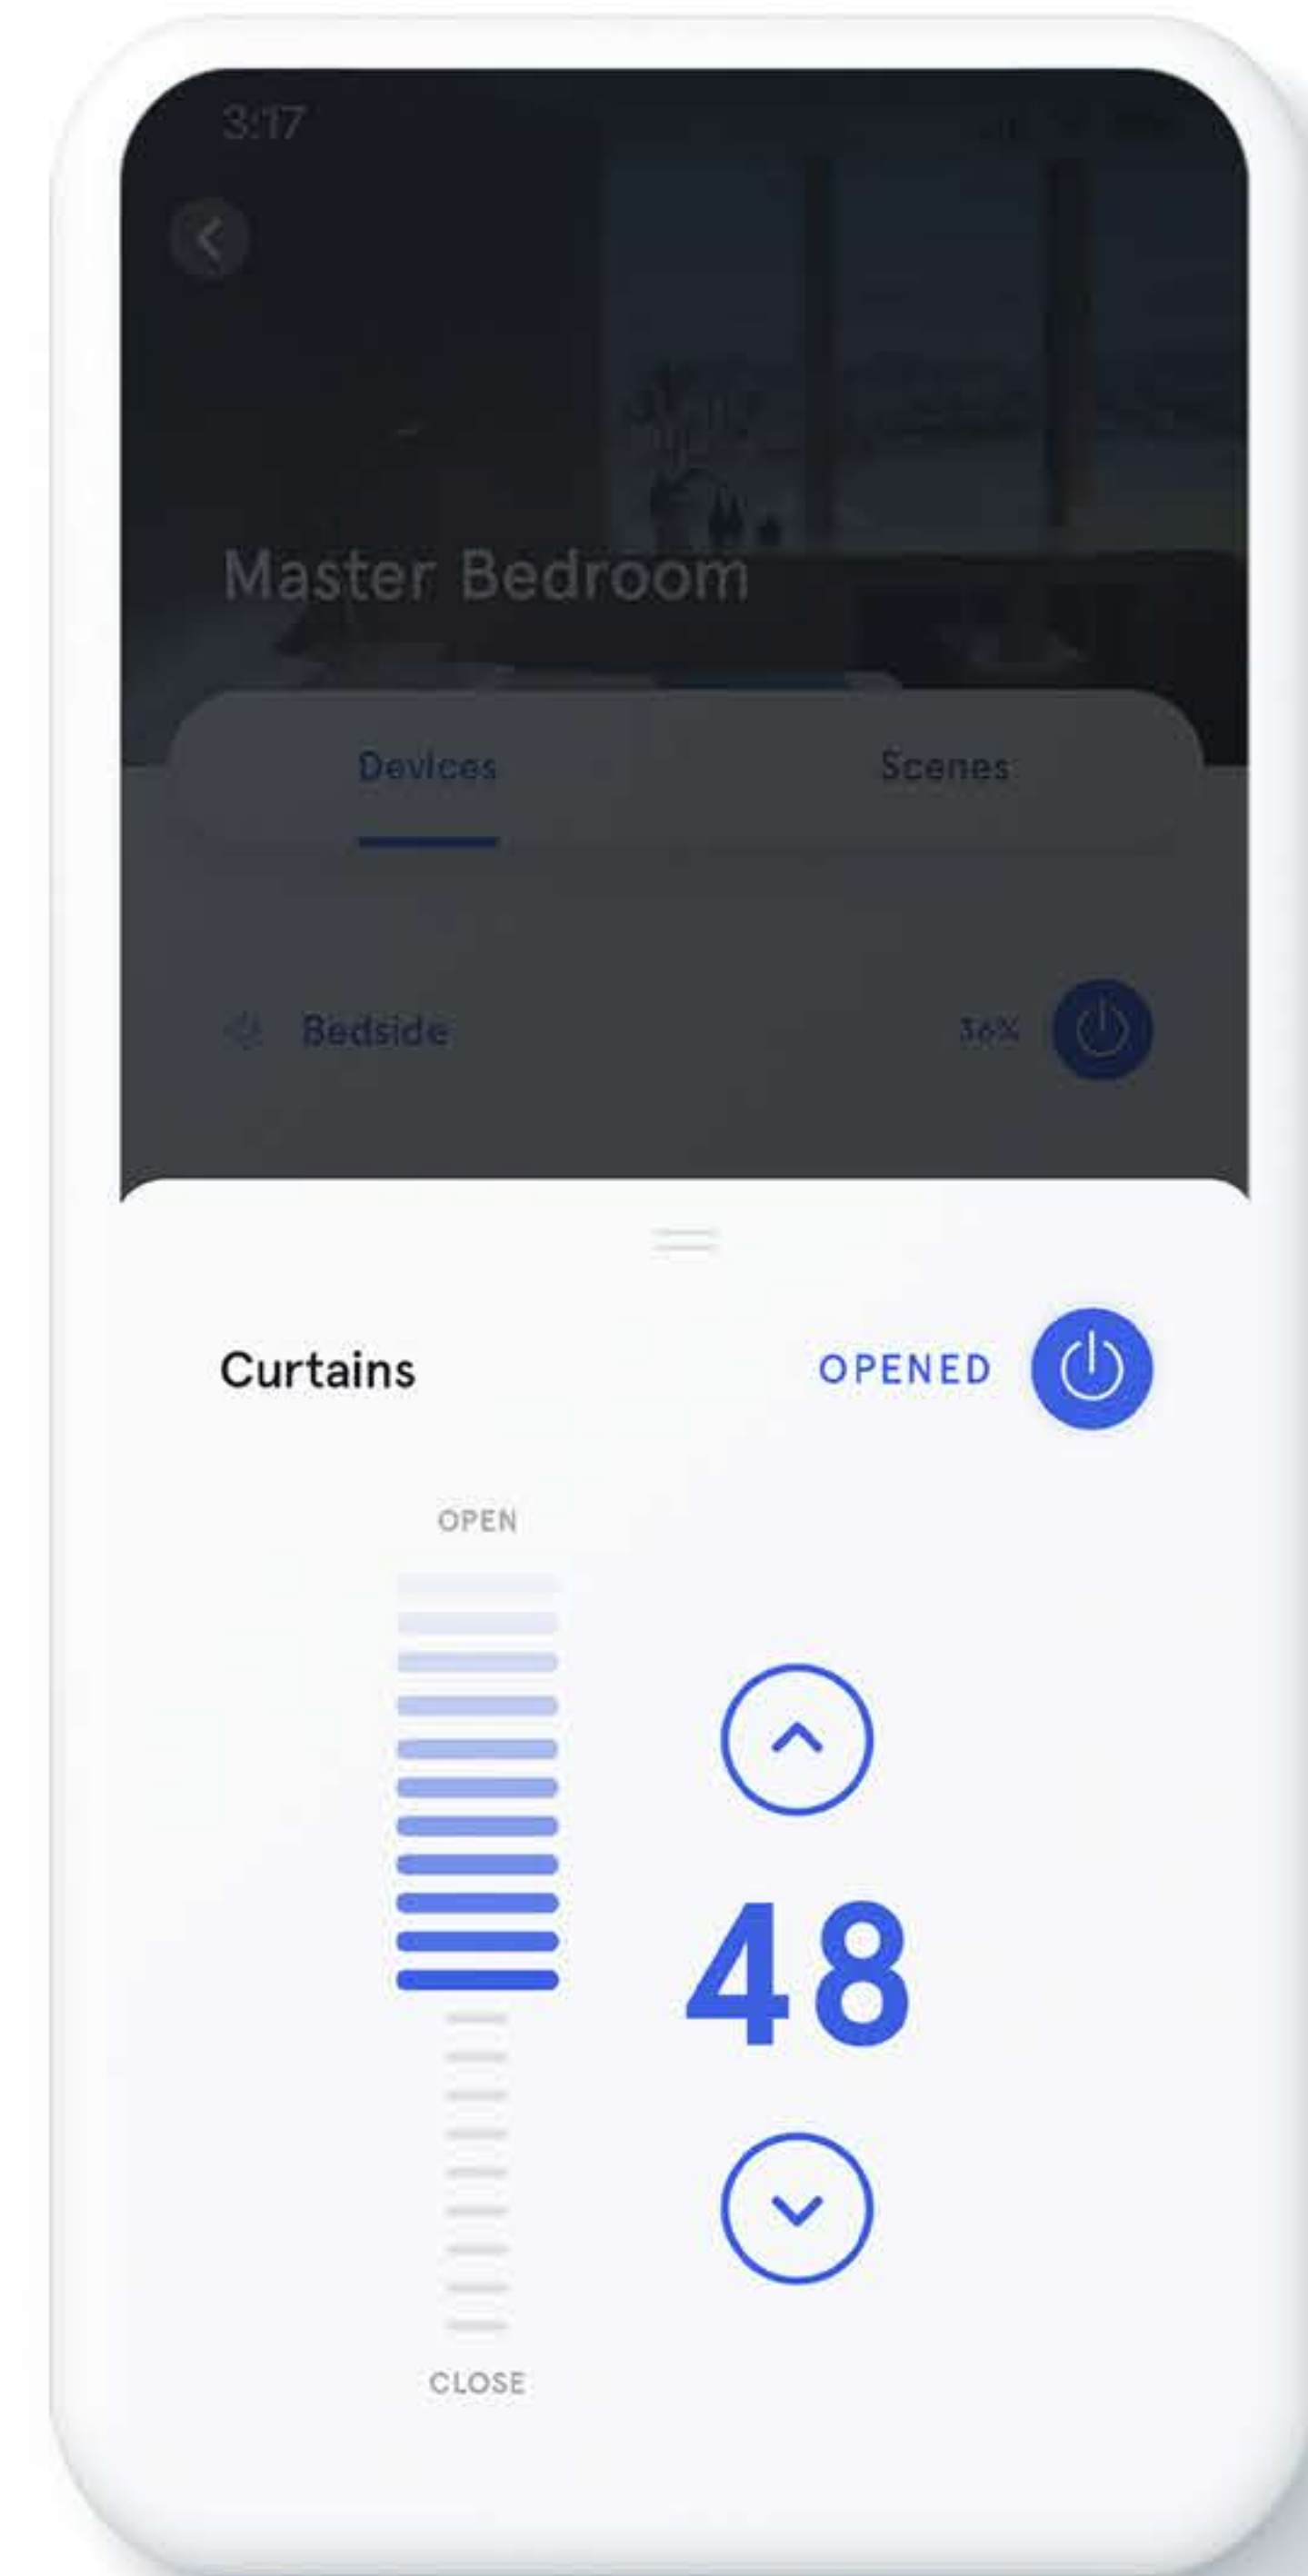

Reports every 2 mins / Battery life reporting

Installation device mount provided

Operation Range 10-15 meters Open Area (Short Range)

Waking Up Just Got A Whole Lot Easier

HOMI's shade modules will work with both roller blinds and curtain track motors. These modules can be hidden inside the curtain or in the ceiling, thus preventing additional contracting work.

Model Smart Shades Module
Size 97.9mm (w) * 29.93mm (h) * 25mm (d)
Operation Temperature 0°C - 40°C
Load (cos 0-1) 10Ax1

Operation Frequency 2.4GHz
Operation Range 100-200M, ZigBee Mesh Network
Operation Voltage 110V-230V AC 50Hz; Fuse Built-in
Functions & Control ON/OFF

Save On Your Home Electricity Bill

Our energy saving module makes your air-conditioning compressor more efficient, helping you save up to 30% on energy bills! It makes use of 2 temperature sensors and has algorithms that are optimized to each of the 16 temperature settings within.

ENERGY
30%
SAVED

Easily Retrofitted To Existing Air-Cons

The time it takes to lower the temperature by 2°C depends on the compressor's ability to supply refrigerant at a minimum. By optimizing the load, ventilation, and sensor placement; the energy saver module improves compressor runtime to deliver savings of 15-40%.

Model Energy Saver Module
Size 17.7cm x 11.3cm x 3.8cm / 7" x 4.4" x 1.5"
Unit Weight 342g, 12oz
Electrical Supply 110V to 240V AC50/60; Auto-switching
Current 2mA (220V), 1mA (110V)

Operating Environment 0°C to 55°C, RH to 95%
Storage Environment -25°C and 85°C, RH 15% to 95%
Certifications CE, C-Tick, ETL, FCC, RoHS
Relay Normally closed - closes on power failure
Voltage 0-250V (AC/DC) Current 10A continuous/16A peak

Ready For A Smarter Home?

Imagine a home that learns to serve you better, responds to your needs, and helps create the perfect environment. We hold your hand throughout the entire journey, from consultation to installation, and beyond.

Our smart home experts conduct an on-site visit and we'll suggest the best smart products for the home.

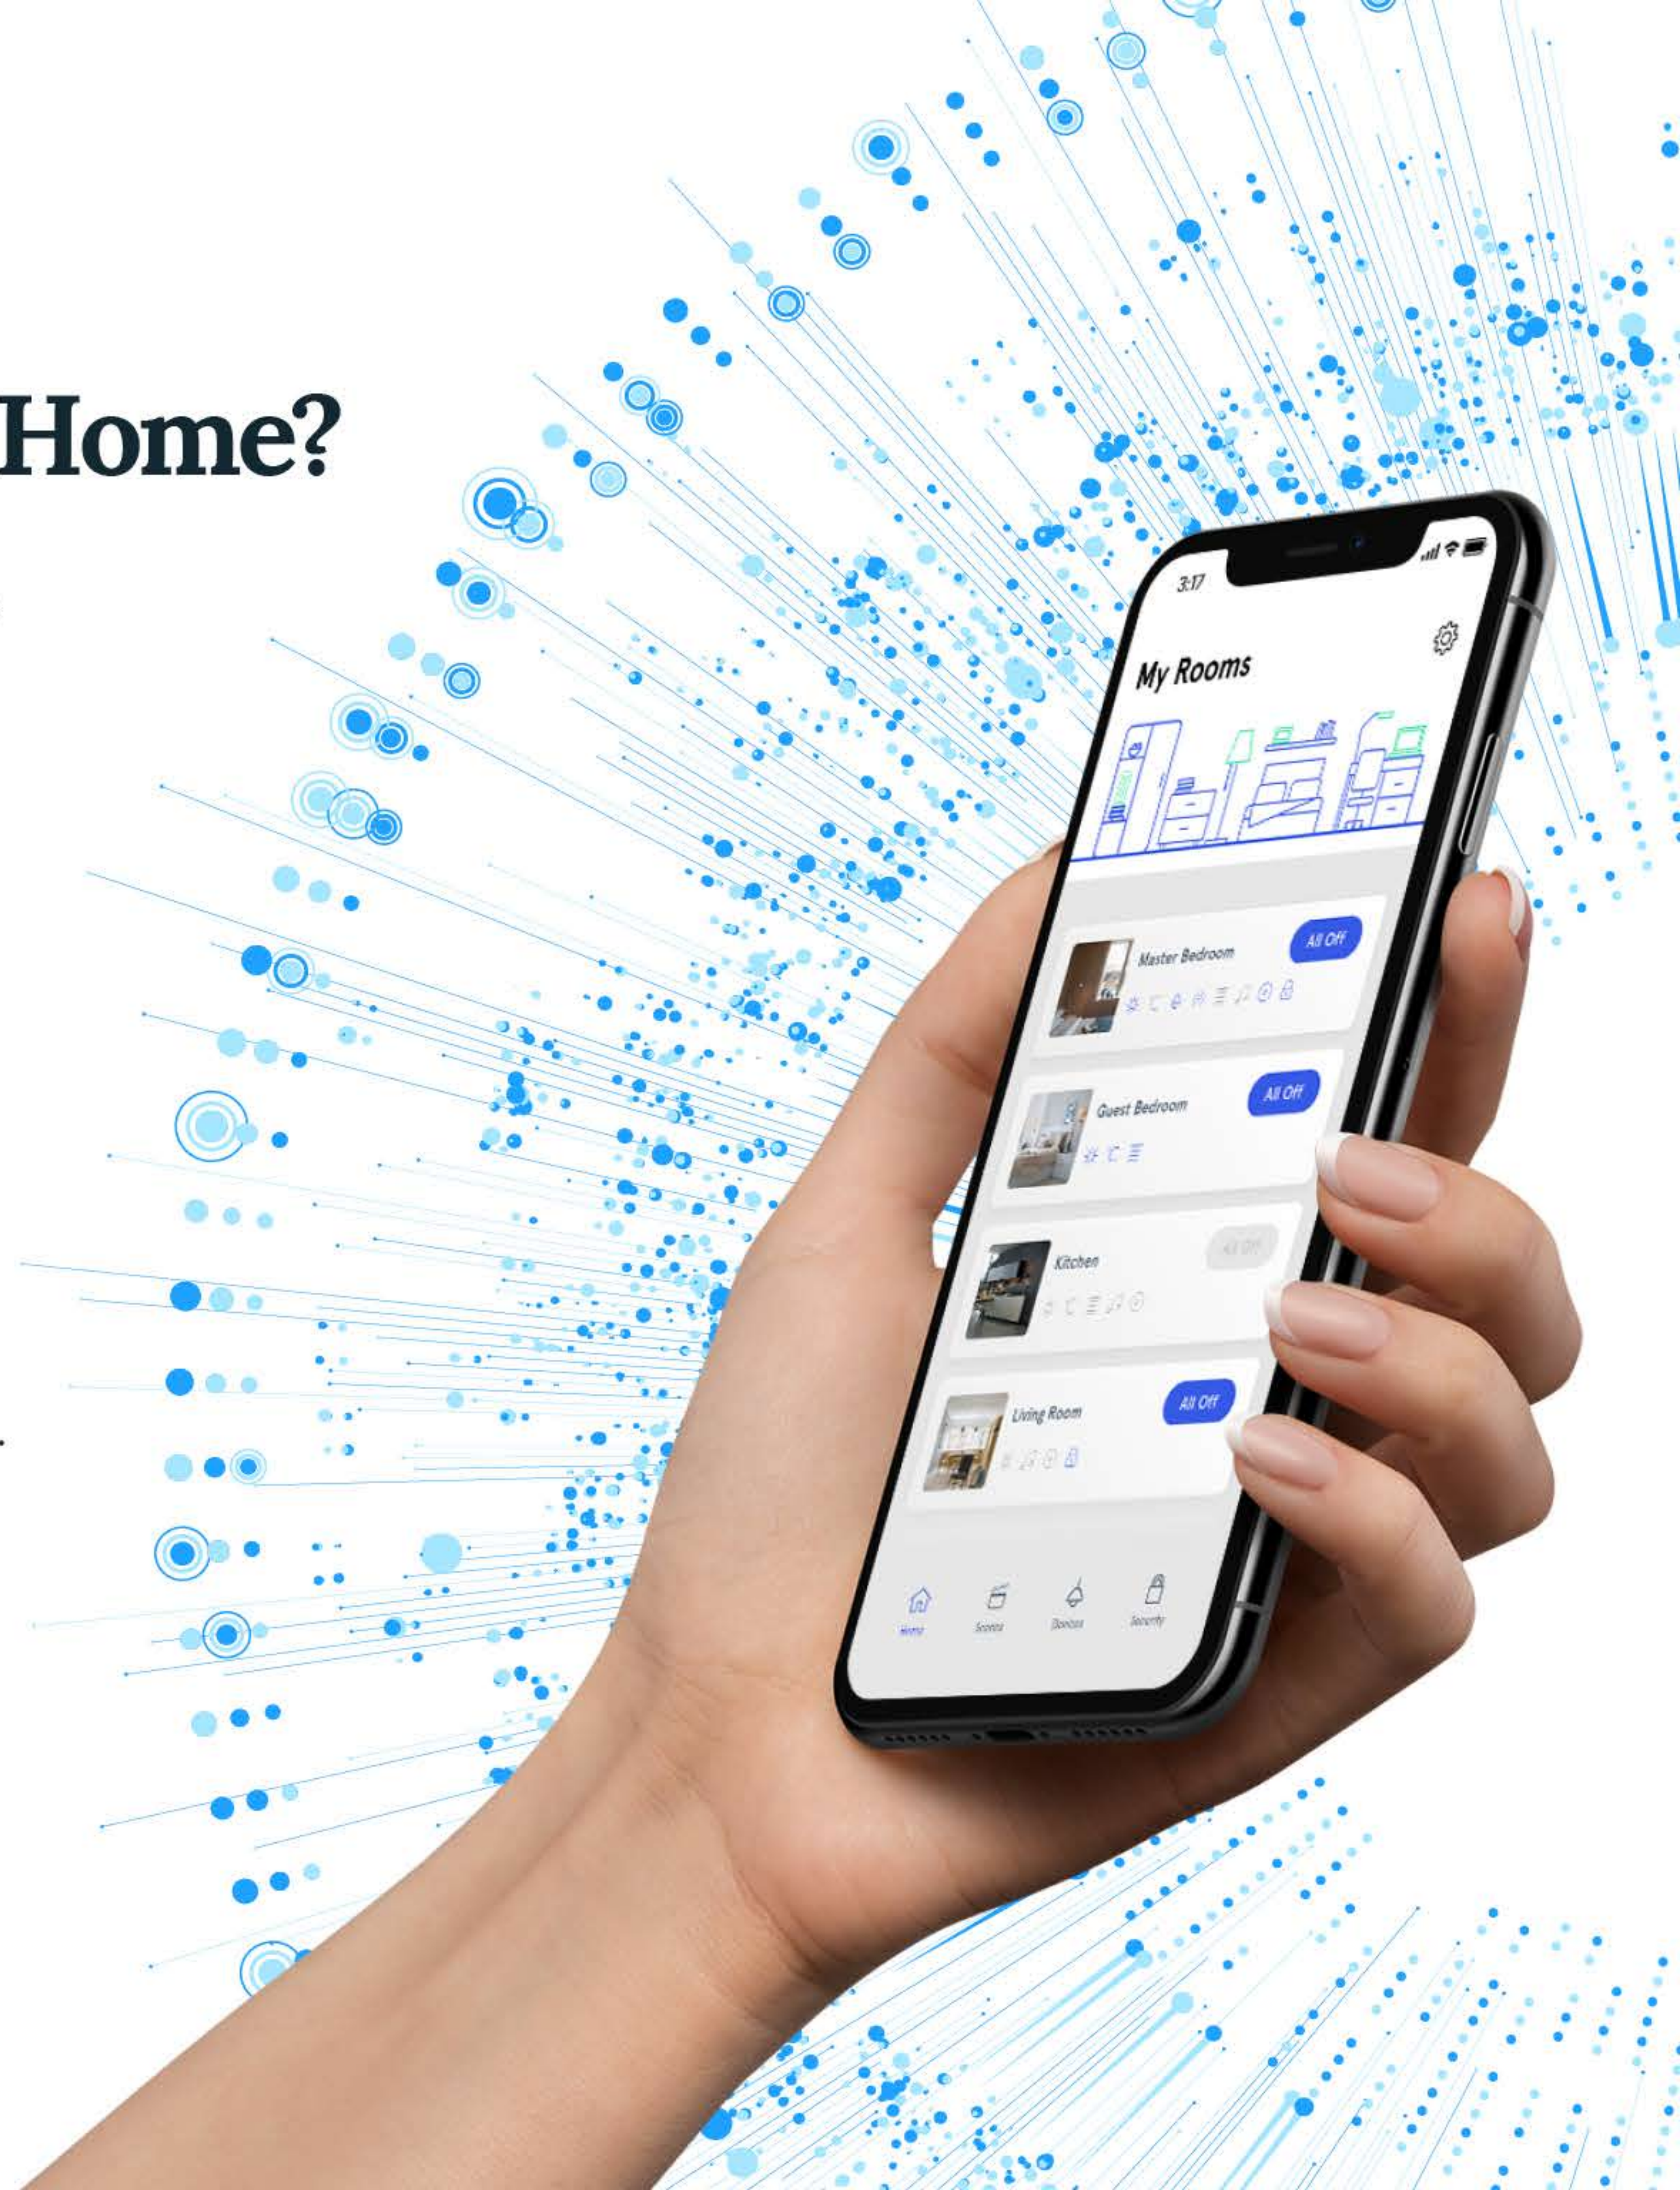

We'll send our experts to install the smart home and a whole lot more.

We configure the entire smart home by adding devices and creating rooms and users.

After the hand-off, it's not goodbye, we provide in-home support for 24 months.

We work with over
200+ smart devices!

24-Months Of Free Maintenance And Support

We provide 24 months of free maintenance and in-home support for all of our products.
