SECTION 1: Identification Product identifier 1.1 Product name L'AVANT Collective Room Spray - Fresh Linen Other means of identification 1.2 Not applicable Recommended use of the chemical and restrictions on use 1.3 To be used as a room spray. For specific intended-use guidance, please refer to the information provided on the package or instruction sheet. 1.4 Supplier's details Name L'AVANT Collective, LLC Address 4786 1st Ave South, Suite 102 Seattle, WA 98134 USA Telephone 1-833-452-8268 1.5 Emergency phone number(s)

1 (800)-535-5053 (North America) 1 (353) 323-3500 (International)

SECTION 2: Hazard identification

General hazard statement

This is a consumer product, which is generally considered safe for consumers and other users under normal use conditions. Consumer products, as defined by the US Consumer Product Safety Act and which are used as intended (typical consumer duration and frequency), are exempt from the OSHA Hazard Communication Standard (29 CFR 1910.1200). This SDS contains information for safe handling and proper use of the product for industrial workplace conditions as well as unusual and large exposures such as large spills.

2.1 Classification of the substance or mixture

2.1 Classification of the substance or mixture

GHS classification in accordance with: (US) OSHA (29 CFR 1910.1200)

- Sensitization, skin, Cat. 1

2.2 GHS label elements, including precautionary statements

Pictogram

Signal word

Warning

Hazard statement(s)	
H317	May cause an allergic skin reaction
Precautionary statement(s)	
P261	Avoid breathing mist/vapors/spray.
P272	Contaminated work clothing must not be allowed out of the workplace.
P280	Wear protective gloves.
P302+P352	IF ON SKIN: Wash with plenty of water.
P333+P313	If skin irritation or rash occurs: Get medical advice/attention.
P363	Wash contaminated clothing before reuse.
P501	Dispose of contents/container in accordance with applicable Federal, State
	and local laws and regulations.

2.3 Other hazards which do not result in classification

No data available.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable.

3.2 Mixtures

Hazardous components

Component*	Concentration*
Ethanol (CAS no.: 64-17-5)	3.0 – 7.0 % (weight)
Phenoxyethanol (CAS no.: 122-99-6)	<1.0 % (weight)
Hydroxy citronellal (CAS no.: 107-75-5)	<0.4 % (weight)
Limonene (CAS no.: 5989-27-5)	<0.4 % (weight)
Citronellol (CAS no.: 106-22-9)	<0.4 % (weight)
Benzyl salicylate (CAS no.: 118-58-1)	<0.4 % (weight)
Amyl cinnamal (CAS no.: 122-40-7)	<0.4 % (weight)

*The specific chemical identities and/or actual concentrations for one or more listed components are being withheld as trade secrets under the US regulation 29 CFR 1910.1200(i).

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

General advice	Consult a physician. Show this safety data sheet to the doctor in attendance.
If inhaled	Call a poison center or doctor if you feel unwell. Remove to fresh air and promote deep breathing.
In case of skin contact	Rinse with plenty of water. Call a doctor if irritation or rash develops or persists. Wash contaminated clothing before reuse.

In case of eye contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If symptoms persist, call a physician.
If swallowed	Rinse mouth immediately and drink plenty of water. Never give anything by mouth to an unconscious person. Call a poison center or doctor if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce vomiting unless directed to do so by medical personnel.

4.2 Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

If inhaled	No information available.
In case of skin contact	May cause an allergic skin reaction. Signs/symptoms may include localized redness, swelling, itching, rash and hives.
In case of eye contact	May cause eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.
If swallowed	May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

4.3 Indication of immediate medical attention and special treatment needed, if necessary Treat symptomatically.

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

5.2 Specific hazards arising from the chemical

Hazardous combustion products: Carbon oxides and other hazardous fumes and gases.

5.3 Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

Further information

Use water spray to cool unopened containers.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Use personal protective equipment as described in Section 8. Do not get in eyes, on skin, or on clothing. Ensure adequate ventilation. Remove all sources of ignition.

6.2 Environmental precautions

Do not let product enter drains.

6.3 Methods and materials for containment and cleaning up Soak up with inert absorbent material. Keep in suitable, closed containers for disposal.

Reference to other sections

For disposal see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice. Do not get in eyes, on skin, or on clothing. Use personal protective equipment as required. Keep out of the reach of children. Keep away from sources of ignition. For precautions see section 2. For personal protection see section 8.

7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place. Keep away from heat and sources of ignition. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Specific end use(s)

Apart from the uses mentioned in section 1 no other specific uses are stipulated.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Ethanol (CAS no.: 64-17-5) PEL-TWA: 1000 ppm (1900 mg/m³) (OSHA) REL-TWA: 1000 ppm (1900 mg/m³) (NIOSH) TLV-STEL: 1000 ppm (ACGIH) PEL-TWA: 1000 ppm (1900 mg/m³) (Cal/OSHA)

8.2 Appropriate engineering controls

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Pictograms

Eye/face protection

Safety glasses/googles are recommended if eye exposure risk exists during product handling/processing.

Skin protection

Protective gloves, such as nitrile gloves, are recommended in case of prolonged/repeated exposure during product handling/processing.

Body protection

Wear protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

Respiratory protection is not normally required in well ventilated areas. Ensure adequate ventilation. Where risk assessment shows air-purifying respirators are appropriate use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Thermal hazards

No data available.

Environmental exposure controls

Do not let product enter drains.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance/form (physical state, color, etc.) Odor Odor threshold bН Melting point/freezing point Initial boiling point and boiling range Flash point Evaporation rate Flammability (solid, gas) Upper/lower flammability limits Upper/lower explosive limits Vapor pressure Vapor density Relative density Solubility(ies) Partition coefficient: n-octanol/water Auto-ignition temperature Decomposition temperature Viscositv Explosive properties Oxidizing properties

Liquid. Characteristic. No data available. Not applicable No data available. Soluble in water. No data available. No data available. No data available. No data available. Not explosive. Not oxidizing.

Other safety information

No data available.

SECTION 10: Stability and reactivity

10.1 Reactivity

Non-reactive under normal use conditions.

10.2 Chemical stability

Stable under normal storage conditions.

- **10.3 Possibility of hazardous reactions** Hazardous polymerization does not occur.
- **10.4 Conditions to avoid** Keep away from open flames, hot surfaces and sources of ignition.

10.5 Incompatible materials Strong oxidizing agents, strong acids, strong bases, reactive metals.

- **10.6 Hazardous decomposition products** No data available.
- **SECTION 11: Toxicological information**

Information on toxicological effects

Likely Routes of Exposure: Eye contact. Skin contact. Inhalation.

If inhaled	No information available.
In case of skin contact	May cause an allergic skin reaction. Signs/symptoms may include localized redness, swelling, itching, rash and hives.
In case of eye contact	May cause eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.
If swallowed	May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

Acute toxicity

Based on available data, classification criteria are not met.

Relevant components:

Ethanol (CAS no.: 64-17-5) LD50 (oral) - rat - 10470 mg/kg LD50 (skin) - rabbit - 15800 mg/kg LD50 (inhalation) - rat - 30000 mg/l - 4 h

Skin corrosion/irritation

Based on available data, classification criteria are not met.

Serious eye damage/irritation

Based on available data, classification criteria are not met.

Respiratory or skin sensitization

May cause an allergic skin reaction.

Germ cell mutagenicity

No data available.

Carcinogenicity

Based on available data, classification criteria are not met.

Components:

Ethanol (CAS no.: 64-17-5) Ethanol consumed as alcoholic beverage is carcinogenic. Ethanol in alcoholic beverages is classified by IARC as carcinogenic to humans (Group 1). Ethanol in alcoholic beverages is classified by NTP as Known human carcinogen.

Reproductive toxicity No data available.

STOT-single exposure No data available.

STOT-repeated exposure

No data available.

Aspiration hazard Based on available data, classification criteria are not met.

Additional information No data available.

SECTION 12: Ecological information

Toxicity

No data available on product.

Persistence and degradability

No data available on product.

Bioaccumulative potential

No data available on product.

Mobility in soil

No data available.

Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

Other adverse effects

No data available.

SECTION 13: Disposal considerations

Disposal of the product

Disposal should be in accordance with applicable Federal, State and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

Disposal of contaminated packaging

Dispose of as unused product.

SECTION 14: Transport information

DOT (US) Not dangerous goods

IMDG Not dangerous goods

IATA Not dangerous goods

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

SARA 302 Components

Based on available data, no chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 311/312 Hazards

Acute Health Hazard.

SARA 313 Components

Based on available data, this material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.
