

VINYL TILE GUIDE

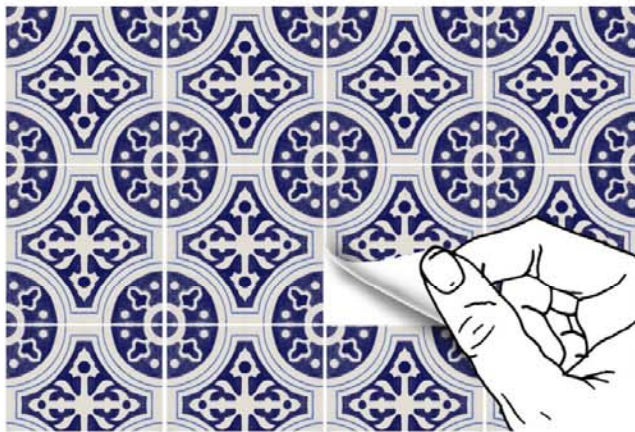

-How to install your Vinyl Tiles with QUADROSTYLE

Install your QUADROSTYLE tiles by making sure the surface is clean of all traces of dust & grease. Remove any trace of detergent with a damp sponge and allow to dry .

Turn back a corner of the tile from the backing, peel it off and position it on the existing surface.

Using a dry cloth and a smoothing motion, push out any air bubbles toward the edges until the sticker is firmly adhered. Pay extra attention to the edges.

Clean QUADROSTYLE tiles as necessary. Scrubbing & the use of abrasive chemicals is not recommended.
