PM2/PM2E

Smart Power Strip

Works with
Apple HomeKit

WORKS WITH
**amazon alexa**

works with the
Google Assistant

Product Overview:

PM2/E smart Wi-Fi power strip can be controlled through Wi-Fi wireless network. You can switch on/off each outlet and monitor its status wirelessly. The built-in power meter in outlet C(PM2 only) allows you to track power consumption of a specific light or appliance on the LinkWise APP.

1 x USB Type-A charging port supporting Qualcomm Quick Charge 3.0 (available with PM2 only);

2 x USB Type-A ports supporting DC5V, with total maximum current of 2.4A. USB ports are only for charging but not for data transmission or APP control.

1	Main Power Button	Press to turn on/off power supply
2	Main Power LED	Indicates power supply status
3	Power Status LED	Indicates on/off status of each outlet
4	Reset Button/Wi-Fi Connection LED	Press once to switch 3 outlets on/off simultaneously/Press & hold for about 10 seconds to factory reset PM2/E. After reset, All connection data will be cleared and the device needs to be removed and added back to the app.
5	USB Ports	For charging only.To enable Quick Charge 3.0, the device being charged needs to support this function.
6	Overload Protection Switch	When curremt load hits the maximum capacity, it will trigger overload protection and cut off power supply. In this case, recover power supply by manually press the switch back in.
