

Helping us lend a helping hand

Every time you buy a TUYA product, you're helping us support two economically backward villages near our herbal garden and production centre with **healthcare, education, food, sanitation** and many other services. Clearly, we believe that charity begins at home. Experience TUYA and help us serve humanity better.

TUYATM
Nurturing a beautiful you

Nature is omnipresent; all-pervasive. Profoundly powerful, it is a vital bouquet of solutions for everything that touches mankind right from basic needs to more significant ones.

For instance, beauty and health.

Observing that people were becoming increasingly aware of the holistic goodness of **Ayurveda and Siddha** for overall well-being, we at **SKM Siddha and Ayurvedha**, a versatile **ISO:9001:2015 GMP-certified company**, serving people with quality herbal medicines for over 3 decades, decided to make their life-enriching benefits available to all.

TUYA nature has the answer

The result of our passion is TUYA, an array of primarily handmade **Ayurvedic** products for skin care, hair care, and body wellness.

TUYA means purity, and personifies nature's best-kept secrets handmade to perfection. We offer a range that comprises face care, foot care, hair care and body care products.

The assurance of safety and purity

Combining the best of Ayurveda and Siddha, TUYA products pack in nature's finest, most potent ingredients carefully handpicked and ethically sourced from our herbal gardens, and through wild-herb collectors, from forests. Extensively researched and prepared in our ISO and GMP certified production centre, they

adhere to the highest standards of purity, ensuring superior quality across our products.

Our formulations are completely natural and hence **free of sulphates, parabens, formaldehyde, PEGS and other harmful additives. No tests on animals are conducted here.**

We believe you deserve nothing less. So does Mother Nature.
