1. CONSTRUCTING THE HOOP

- The hoop is comprised of 8 pieces that snap together to form 1 ring.
- Start by holding up 2 pieces at opposite ends. Each piece should have an opening with a notch, and an elongated piece that fits into the open end. Be sure that the notch is lined up with the appropriate slot on the elongated piece (Figure 1).
- Insert the end with the elongated piece into the open end of the opposite piece (Figure 2). Then, twist the notch end counter-clockwise to lock in place (Figure 3).
- Continue this process with each piece until the hoop is completed.

3. CONNECTING THE HOOP TO THE POLES

- Snap the 2 pole segments together using the attachment pieces and insert the poles into each base (Figure 6 & 7).
- Using the 2 provided clips, snap them onto each side of the hoop parallel to each other (Figure 8).
- Slide the other end of the clip onto the pole on each side (Figure 9).
