WARNING! ADULT ASSEMBLY REQUIRED-

This product should be unpacked and assembled by an adult, including site and tree selection, as well as the secure and proper installation

slackers® BACHAR LADDER

INSTALLING THE BACHAR LADDER TO THE NINJALINE

- Your Ninjaline has multiple pockets for attaching a variety of obstacles. Your Bachar ladder will need 1 pocket
- Attach the Delta to the pocket on the line where the end of the ladder can wrap around the base of the tree.

INSTALLING THE BACHAR LADDER TO A TREE

- You can also install the Bachar ladder to a tree. Install the short end to the top of the tree branch by wrapping around and using the included carabiner to hook both loops.
- The longer end wraps around the base of the opposing tree and should be secured by the included delta clips
- We recommend using our Tree Hanger (sold separately) to attach the top of the bachar ladder to the tree

ADJUSTING THE BACHAR LADDER

- Adjust the bachar tubes by loosening the ropes and sliding up and down.
- Place the tubes closer together for younger users and space them out for an additional challenge.

5. MAINTENANCE OF YOUR BACHAR LADDER

At the beginning of each play season:

- Check all metal parts for rust. If found, sand and repaint using a non-lead based paint meeting the requirements of 16 CFR 1303.
- Check all moving parts including bars, ropes, cables, and chains for wear, rust, or other deterioration. Replace as needed.
- Check the rope and bars for deterioration, cracking or fraying. If found, DO NOT USE and dispose of immediately.
- X.3.1.1 Loose-Fill Materials: X.3.1.1 Maintain a minimum depth of 9 in (23 cm) of loose-fill materials such as wood mulch/chips, engineered wood fiber (EWF), or shredded/recycled rubber mulch for equipment up to 8 ft (2.4 m) high; and 9 in (23 cm) of sand or pea gravel for equipment up to 5 ft (1.5 m) high. NOTE: An initial fill level of 12 in (30 cm) will compress to about a 9- inch depth of surfacing over time. The surfacing will also compact, displace, and settle, and should be periodically refilled to maintain a least a 9 in (23 cm) depth.

Once a month during play season:

- Check all moving parts including bars, ropes, cables, and chains for wear, rust, or other deterioration. Replace as needed.
- At the end of each play season or when the temperature drops below 32° F (0° C) take in your equipment and store indoors in cool dry location.
- X.3.1.1 Loose-Fill Materials: X.3.1.1 Maintain a minimum depth of 9 in (23 cm) of loose-fill materials such as wood mulch/chips, engineered wood fiber (EWF), or shredded/recycled rubber mulch for equipment up to 8 ft (2.4 m) high; and 9 in (23 cm) of sand or pea gravel for equipment up to 5 ft (1.5 m) high. NOTE: An initial fill level of 12 in (30 cm) will compress to about a 9- inch depth of surfacing over time. The surfacing will also compact, displace, and settle, and should be periodically refilled to maintain a least a 9 in (23 cm) depth.

BE SAFE! - ALWAYS FOLLOW THESE RULES - OBSERVING THE FOLLOWING STATEMENTS AND WARNINGS REDUCES THE LIKELIHOOD OF SERIOUS OR FATAL INJURY

- There shall be a use zone for each play structure which shall consist of obstacle-free surfacing that conforms to Specification F1292 appropriate for the fall height of the equipment.
- The minimum use zone for play equipment shall extend no less than 72 in (183 cm) from all sides of the play structure.
- Place the equipment on level ground, not less than 6 ft (1.8 m) from any structure or obstruction such as a fence, garage, house, overhanging branches, laundry lines, or electrical wires.
- Do not install home playground equipment over concrete, asphalt, packed earth, grass, carpet, or any other hard surface. A fall onto a hard surface can result in serious injury or death to the equipment user
- Do not wear inappropriate items, such as but not limited to, loose fitting clothing, hood and neck drawstrings, scarves, cord-connected items, capes and ponchos. These items can cause death by strangulation
- Do not to attach items to the playground equipment that are not specifically designed for use with the equipment, such as, but not limited to, jump ropes, clothesline, pet leashes, cables and chain as they may cause a strangulation hazard.
- Remove their bike or other sports helmet before playing on the playground equipment.
- Dress children with well fitting and full foot enclosing footwear. Examples of inappropriate footwear are clogs, flip flops, and sandals.
