

1263 Say Cheese Camera Bag

We have found several small errors and a whopper. There are also some points that needed clarification in this pattern. If you prefer a replacement pattern, please contact us at wpcreek@wpcreek.com Our most sincere apologies for all of the trouble this may have caused you

Replacement Patterns Have Been Sent To Our Distributors

Materials:

Increase woven interfacing to 4 yds. Or you may skip interfacing the lining (17 1/2 x 12). You will still have a great bag. This was intended to be optional

- Decrease heavy interfacing to 3/4 yd

Corrections:

Page 1 Iron interfacing on wrong side of Fabrics 1,2,3 (Page 1)

Page 1 Cut Fabric 7 to 21" x 5" not 21" x 6" - Straps

Page 8 ****Very Important**** Apply Magnetic Snap to Lining Fabric, not Fabric 5 for the Top Flap *******

Page 8 ****Very Important**** Sew the Flap to the bag before sewing the zipper flaps to the bag *******

Page 7 Measurement for zipper flap is 3/4" as shown in diagram not 1/2"

Clarifications:

Materials: Pellon Thermolam is Fusible Fleece not interfacing

Instructions:

Page 7 Zipper Flaps should be mirrored, so zipper zips correctly

Page 9 Straps are Fabric 7

Page 9 Cut the Velcro 6" Lengths for the Dividers from the Hook Side

Page 9 Cut the Velcro 5" Lengths for the Dividers from the Loop Side

Page 10 Cut all of the Velcro Lengths for the Bag Insert from the Loop Side
