

## Alpaca His & Hers quilts

An innovative dual weight quilt - one side is cooler the other side warmer

The Alpaca His & Hers quilts are an innovative one piece dual weight quilt designed to solve the common problem: where one partner is cold and the other partner is too warm. If you sleep alone, just flip the quilt to match the season.

A clever solution - a quilt that is filled with a 500gsm of fibre on one side (for those sleepers who are cold) and 300gsm filling on the other cooler side.

UltraSoft seamless quilting design - better temperature balance & appearance

Exclusive to Kelly & Windsor Australia.

Available in standard queen, king and super king sizes. Special sizes on request.
