OFFICIAL NEWSLETTER OF FROG DIVE

MAY 7

WHAT'S NEW THIS WEEK

Our Tech students at work!

Last weekend, our lads were out on the water completing their Technical diver course. With over 18 metres of visibility and waters being flat as a tac, what more could the team want?

A massive thankyou to Instructor Ben and to our awesome skippers, Mads and Hammo for their awesome work!

In this newsletter you will find:

Walindi, Advanced Course, G2 Tek Computer, New boat dives

WITH FROG DIVE

Travel to Papua New Guinea and dive Kimbe Bay, home to the world's oldest coral reef system, and is one of the world's most diverse ocean environments. With everything from shallow sea grass beds and mangroves to deep seamounts. These habitats house a staggering number of species of marine life and the area offers an abundance of corals not seen anywhere else in our oceans. The diving is quite simply superb and this destination never fails to disappoint, and at certain sites you can see hammerheads, barracuda, giant trevally and dog tooth tuna!
