

# BM5565 | DECK CHAIR WITH FOOTREST

## BØRGE MOGENSEN

CARL HANSEN & SØN

### DESCRIPTION

Børge Mogensen originally developed the Deck Chair series for his own balcony in the late 1960s when he lacked outdoor furniture that was comfortable, functional and space-saving. The idea was to create foldable furniture that could hang on the wall when not in use. The Footrest provides added comfort.

### PRODUCTION PROCESS

All parts are crafted by machine and sanded and assembled by hand. Three sides of the cushion is sewn together, after which the cushion channels are filled with foam and finished.

### DESIGNER

Børge Mogensen (1914–1972) was a pioneer in democratic design and was known as ‘the people’s designer’ – partly due to his engaging personality, but also because he always designed quality furniture that was within people’s reach. Mogensen’s democratic design included simple and functional wooden furniture, with calm aesthetics and strong construction from quality materials.
