

CH468 | OCULUS CHAIR

HANS J. WEGNER

CARL HANSEN & SØN

DESCRIPTION

CH468 is known as Oculus, referring to the eye shaped stitching in the chair's back upholstery. The design works to ensure that the shoulder blades can fall back comfortably into the chair creating rest for both the neck and back. The distinctive design with the spacious back has made the Oculus Chair popular.

PRODUCTION PROCESS

The frame is bent and welded together. Then it is polished and assembled by hand. The chair consists of molded foam and is then upholstered by hand.

DESIGNER

Danish architect Hans J. Wegner (1914-2007) is considered a pioneering furniture designer of the twentieth century. Often referred to as the master of the chair, Wegner created almost 500 in his lifetime – many of them considered masterpieces. Wegner was part of the spectacular generation that created what is today referred to as 'the Golden Age' of modern Danish design.
