

Crochet Hook Set Instructions

Steve's Woodcraft

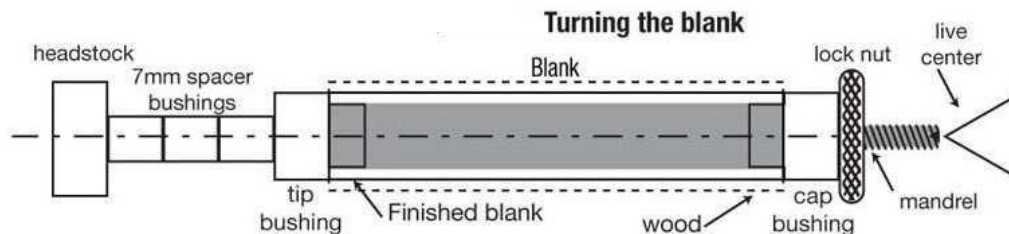

Required Accessories

- 7mm Pen Mandrel
- 2 piece Bushing set
- 9.5mm drill bit
- Glue
- Pen blank

Preparing the Blank

1. Cut 1 blank to the length of the tube and add 2mm for squaring off.
2. Drill a 9.5mm hole lengthwise through each blank.
3. Glue the tube into the blank. Coat the outside of the tube with glue and insert the tube into the blank with a twisting motion to spread the glue until flush. Allow it to dry.
4. Square the ends of the blank to the tube.

Turning the Blank

1. Slide 7mm spacer bushings onto the mandrel shaft, followed by a bushing. Slide on the blank followed by the other bushing. Add additional spacer bushings as necessary to reach the mandrel threads.
2. Thread on the locknut hand tight. Bring the tailstock in snug to the mandrel, lock in place. Tighten the lock nut for turning. DO NOT over tighten the locknut - it could damage the mandrel.
3. Turn the handle close to the bushing diameter with sharp tools; sand the barrels to match the bushing diameter.
4. Finish the wood with your choice of polish.

Assembly

1. Press the clip and cap assembly into one end of the barrel.
2. Screw a crochet hook into the crochet hook holder and push into the other end of the barrel.
3. When not in use, reverse the hook holder to safely store the hook.
