

To,

Greetings from Mybooster!

We are a premier lifestyle ecommerce portal with a strong focus on holistic healthcare. MyBooster believes that the quality of our drinking water determines our health and wellness. Water is the most important substance that supports all life, and a major change in the way we drink water can have a life-changing impact on our quality of life and longevity. We believe that India, as an emerging and growing nation, needs to focus on the quality of water that its citizens drink, which is why MyBooster is conducting a Nation-wide Water Awareness Campaign in the interest of public health and wellness.

Improving lives by involving the spirit of community building and a concern for the overall upliftment of India's health in regards to drinking water technology is the core principle governing our extensive Awareness Program. We would be honored to conduct a Water Awareness Drive at your Corporate Office, with live demonstrations presented and organized by a team of experienced specialists. We request your permission for the same and hope to help you and your colleagues in discovering a newer, healthier way to drink water- not only as a necessity for life, but also as a therapeutic miracle that can heal and restore your body.

Humble Regards,
Water Awareness Campaign Manager,
MyBooster India
