

MYBOOSTER

HYDROGEN WATER BOTTLE HI-TA13

Easy usage & sleek design

USB charging

1 Year warranty

PFC patented electrodes

EXCLUSIVE DISTRIBUTOR

Buder[®]
Mfd. By
Maxell
Made in Japan

INNOVATIVE TECHNOLOGY, CONVENIENT DESIGN

20 uses with 1 full charge & Quick charging inbuilt Battery

Inbuilt replaceable filter cartridge for odour removal & purity

Washable filter cartridge for longer usable life and shelf life

JIS IPX1 Certified water resistant design for hassle free use & device protection

Silent operation and rapid generation of hydrogen rich water

Automatic backwash cleaning system for triple layer electrodes

Modular design - disassemble components of the bottle for easy cleaning

PFC Platinum-Titanium Patented electrodes for high hydrogen concentration

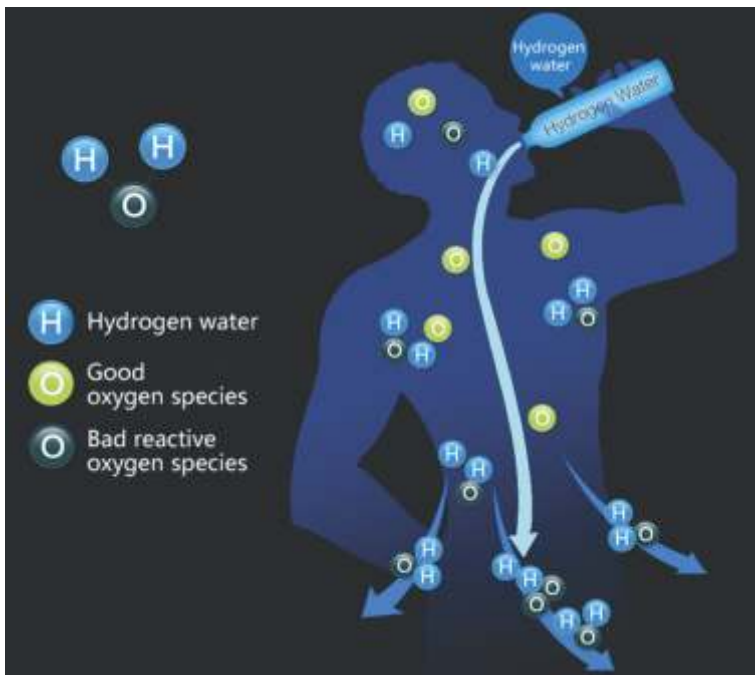

350mL high capacity chamber with sleek viewing window

Polymer Lithium Ion battery for high number of charging cycles

WHAT IS HYDROGEN WATER?

Due to pollution, the toxic chemicals in our air, water & food causes a lot of **“Bad Oxygen”** to gather in our cells, leading them to **Oxidize** & die faster.

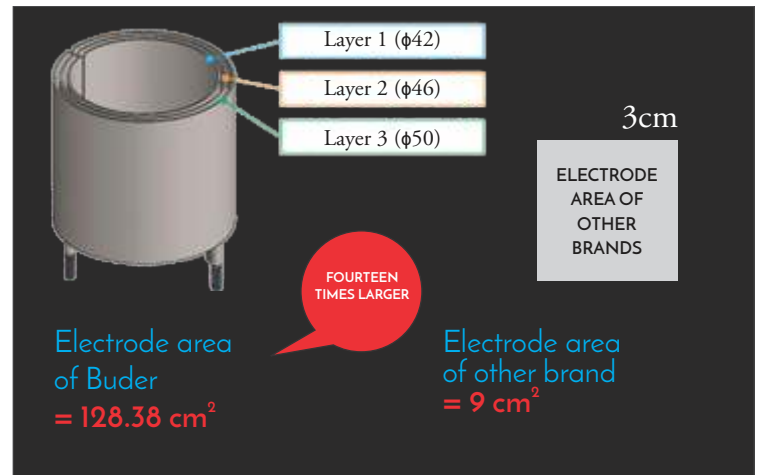

Because of oxidation our energy levels start to drop & we are affected by diseases like Diabetes, Blood Pressure and Stress.

Antioxidants are particles that reduce oxidation. **Hydrogen Water** is the best source of natural antioxidants. The active hydrogen neutralizes the Reactive Oxygen to make H_2O (water) and easily flushes it out of your body!

COMPARISON

Our Superior Product compared to other Brands

Feature	HI-TA 13 H2 Bottle	Other Brands
Electrode Design	Patented PFC Electrodes designed by Maxell Ltd.	Standard Electrode Design
Cleaning System	Automatic Backwash every 1/50th of second	Manual Cleaning
Water Resistance & Leak Proof Certification	JIS IPX1 Certified Water Resistance	Uncertified Chamber Designs
Usage Cycles per Charge	Minimum 20	8-12 uses max.
Inbuilt Replaceable Filter Cartridge	High Quality Filter Membrane Easy to wash & replace	No inbuilt Filter Membrane
Filter Cartridge Auto Indicator	Automatic Indicator For Filter Replacement	No inbuilt Filter Membrane
Manufacturing	Mfd. By Maxell Ltd. in Japan	Made in China
Electrode Size	128.8 cm ²	9cm ²
H ₂ Concentration in 3 Minutes	Upto 900 ppb	550-670 ppb only

HOW DOES H₂ WATER IMPROVE YOUR HEALTH?

Hydrogen Rich Water has been used in Japan for decades, and its health benefits have been researched and proven by doctors as well as scientists.

Regulating Blood Pressure

Hydrogen rich water can normalize the blood pressure in people suffering from high blood pressure by proper hydration.

Improving Diabetes

Drinking upto 900mL of Hydrogen Rich Water has been proven to improve Glucose Tolerance and Insulin Resistance in Patients with Type-2 Diabetes within 8 weeks

Boosts Skin Health

Hydrogen rich water reduces inflammation and redness of the skin, making it smooth and wrinkle free

Protects the Kidneys

Hydrogen rich water aids the kidneys in flushing out toxins from your body and reduces the strain on your bladder

Improves Metabolism

Drinking 0.5-1L of Hydrogen Rich water per day has shown to improve energy in our cells and increased the metabolism of test subjects.

Helps in Weight Loss

Drinking Hydrogen rich water can increase Fat Burning and Glucose Metabolism without any change in diet, which helps your weight loss!

Essential Antioxidant & Neuroprotective

Hydrogen rich water is a pure source of healthy antioxidants which are Neuroprotective, which means that they protect the brain from stress related damage

TECHNICAL SPECIFICATIONS

Buder Hydrogen Bottle
HI-TA 13

Model No.	HI-TA13
Input Voltage	DC 5V
Input Current	500mA
Battery	Lithium Battery
Charging Time	4 Hours
Water Temp.	10-35' C
Water Resistance	JIS IPX1
Dimensions:	68(W) X 81.5(D) X 240(H) mm
H ₂ Water Generation Time:	3 Minutes (Auto Indicator)
Hydrogen Content:	Upto 900ppb
Usable Water Temperature:	5-30 ° Celsius
Net Weight	440 gm
Accessories Included	USB Cable, Charger, Carry Case

SOPHISTICATED TECHNOLOGY FOR MODERN FEATURES

High-Efficiency
Electrolysis

High-Quality
Inbuilt Filter

High-Concentration
Of Hydrogen

High Corrosion
Resistance
