

MYBOOSTER

MYBooster Launches Buder Alkaline Water Ionizer India gets its own next gen water purification technology with Buder

MYBooster has come up with a viable method to combat the shortage of healthy drinking water. It launched Buder – the next gen Alkaline Water Ionizer. The appliance goes far beyond simple water purification. It works on the revolutionary principle that an alkaline and oxygen rich environment. This prevents the high concentration of acidity in the body, and prevent harmful diseases.

The Ionizer uses 7 Patented PFC Platinum Electrodes. The patented process is energy efficient & environment friendly. Its patented Auto- Reverse Cleaning function increases filter lifespan to 12,000 liters. The ionizer system is built to deliver the highest concentration of hydrogen ionization of upto 1,200 ppb.

The Buder dispenses healthy water that has the below characteristics

- The water’s high hydrogen content has a pH greater than 7, which denotes a higher alkaline content
- The appliance uses electrolysis to add antioxidants in alkaline ionized water
- Antioxidants in Alkaline Ionized Water have extra electrons which reduce oxidation & prevents damage your tissues & DNA
- Buder's Alkaline Water Ionizers give the widest pH range without using harmful chemical
- Buder’s Alkaline Water Ionizers give the highest negative ORP compared to all other ionizers (The lesser the ORP higher is the antioxidant property & dissolved oxygen!)
- It has completely BPA free to preserve your health

BUDER
Since 1970

The image shows a Buder HI-TA 817 Alkaline Water Ionizer. The device is a tall, silver-colored unit with a digital display on the front showing 'アルカリ 9.5' and 'ORP -10.5'. Below the display are several buttons and a control panel. To the left of the unit are four circular icons with text describing features: a funnel icon for 'UF Filter Removes 13 Types Of Contaminants', a faucet icon for 'Handles Water Upto 500 TDS', a flask icon for 'High pH Range Without Using Harmful Chemicals', and an H₂ icon for 'Inbuilt Hydrogen Function'. To the right of the unit are four circular icons with text describing features: a star icon for '7 Year Warranty On Electrodes 12,000L Filter Life', a gear icon for 'Patented Reverse Auto - Cleaning Technology', a filter icon for 'Automatic Filter Replacement Alert', and a hand icon for 'Patented Designs Largest Platinum Electrode Area'. The unit itself has a label on the left side that lists features: 'Remove the soluble lead 100%', 'Manufacturer: Maxell-Maxell Ltd', '7 Patented PFC Platinum Electrodes', 'Remove 13 kinds of substances', '7 kinds of water', '12,000L', and 'MADE IN JAPAN'.

Patented Technology

MYBOOSTER

These aspects keep diseases at bay and help the body to get the right composition of alkaline and antioxidant-rich water. Research shows that supplementation of hydrogen-rich water improves lipid and glucose metabolism in patients with type 2 Diabetes or impaired glucose tolerance. It also reduces UVB- induced skin damage. The appliance is designed to provide water with different pH levels – from 2.7 (Strong Acidic for Sanitization), 7 (pure, balanced water) to 10.5 (water for cleaning).

Buder's Alkaline Water Ionizer is recognized the world over for its superior quality performance. It has been bestowed with countless certifications like Green Mark, ISO 9001:2008, and ISO 13485:2003, in recognition of the amazing quality of water it dispenses.

About MYBooster

MYBooster deals in a range of products that are geared to deliver absolute health to Indian households. Be it free standing alkaline water ionizer dispenser or under sink water ionizer, or its hot-selling 7-Plate Countertop Alkaline Hydrogen Water Ionizer.
