

DI MYBOOSTER

NANOHYDROMETER

UV Protection

Anti-Acne

Anti-Ageing

Better Moisturizing

AUXILIARY FUNCTION:

Relieves skin allergies

Helps to open skin pores before applying face mask & facial creams

Relieves from skin scalding

Reduces redness & swelling occurs due to sun burn

Quickly stops itching and swelling after mosquito bite

Reduces dryness of eyes

Helps to cool down skin temperature in hot weather

Help to recover rhinitis

EASY TO DEAL WITH ALL KINDS OF SKIN PROBLEMS.

Dry Skin

Cuticle repair, helps the skin to rebuild a self-renewal environment, Spray daily to form a natural protective barrier.

Oily Skin

Accelerate the metabolism & reduces takes away excess oil from the pores of the skin and effectively reduces acne.

Neutral Skin

Moisturizes your skin & can be a perfect replacement for your daily exfoliating products.

Sensitive Skin

Water-rich, nano atomized water molecules reduces sensitivity of the skin due to pollution & sun burn.

METHOD OF USE

- Charge the Nano Hydrometer with the charger provided.
- It has to be charged properly till the time the Green light is on.
- Keep the water tank in hand upside down, add filtered water into water tank. Then fit the spray to water tank upside down.
- Start the spray by pushing sliding vane down.
- Normally spray from 10 cm away on your skin & spray 15 cm away if makeup is applied.
- It works continuously till the switch is on & blue light is at work.
- The jet has to be placed aiming the expected skin area & ensure that there is sufficient water every time it is used.

INTRODUCTION AND FUNCTION

- This product uses the ultra high speed vibration technology, make water into superfine particles, can quickly permeate to base layer by the stratum corneum, and instantly supply moisture to the skin water scarcity. It can be used for the whole body, face, body and hair.
- Allergic skin group, with toning lotion can achieve moisturizing, soothing, repair effect. It can also smooth fine lines, fade the color spots, slow the aging of skin, make the skin smooth and elastic, and solve all kinds of problems of women's skin.
- Dehydrated dry skin can be used to adjust abnormal pH value. Cooperate with lotion and it can solve dark skin issue. If there is no gloss, scurfy long spot, make the skin to regain the luster, full of elasticity.
- Oily skin people use adjustable water oil balance, with water to reduce dilute oil secretion. The glossy, big pores, blackheads, cortical thickness will become smooth, dermatoglyph deeper. If appearance is dark skin then skin will become alkaline. It helps to from ultraviolet light, easy to turn black skin, easy to take off the makeup, easy to produce the problem such as acne.
- People who enjoy driving and driving to work can also act at mini-humidifiers in their cars, turning the car into a healthy and comfortable private space.

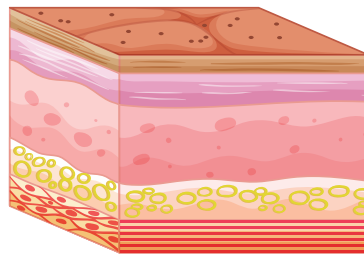

Nano atomized water molecules

Atomization characteristics

The high frequency vibrational water molecules are rapidly atomized and can be exposed to more skin surface.

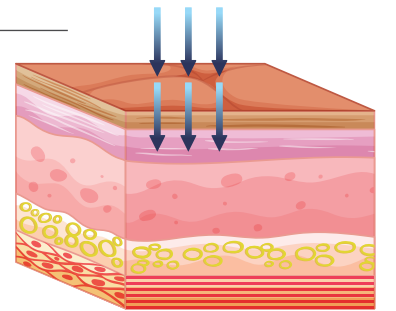

The mist rapidly permeate the pores

Penetrate into the skin

The atomized water molecules can penetrate the pores of the skin and penetrate into the skin which can be easily absorbed by the subcutaneous tissue of the skin.

Skin to absorb

Absorption principle

Delicate water mist through the pores direct to the subcutaneous tissue, water deficient skin receives water nutrition.

THE MAIN PARAMETERS

The main function	Quick replenishment of water to promote absorption	Suits the crowd	Male or Female
Product material	Nanometer cloud-fog chip	Conditions of use	Charging
Aerosolized amount	1.2 to 1.8 ml/min	The refrigerator capacity	20 ml
The power supply	3.7 V	Battery capacity	1500mAh
Product net weight	98 g	Atomized particles	0.3 UM
