

VICTORY[®]

The standard of equestrian excellence since 1929

A FEW WORDS ABOUT *VICTORY*[®]

In 1929 *The Victory Racing Plate Company* pioneered the aluminum racing plate as we know it today. *Victory* was the first company to produce a forged aluminum racing plate with steel inserts to enhance traction and to reduce wear. *Victory's* aluminum racing plate became the new standard of footwear for thoroughbred race horses and changed the way thoroughbred race horses were shod throughout the world making *Victory* racing plates the most popular racing plate worldwide! In addition, *Victory* racing plates set a new standard on harness race tracks as a substitute for steel.

In 1988 the company's *ELITE* division was created for the purpose of developing *Sport Footwear for the Equine Athlete*. *ELITE* Competition Shoe products proved that aluminum could be used as a viable material for lightweight wide web horseshoes to be used by horses competing in venues off the racetrack.

Today *The Victory Racing Plate Company* offers more racing plate styles to meet the demands of today's trainers and farriers. The original *Victory* racing plate designs, often referred to as "Traditional *Victorys*", led the industry for decades and are now giving way to more modern designs such as *EC (European Contour)* introduced in 1990; *SPORT* introduced in 2003; and *RX* introduced in 2008.

The Victory Racing Plate Company remains an independent locally owned enterprise committed to producing "Sport footwear for the equine athlete", enhancing performance while protecting the hoof and maintaining a healthy hoof structure.

The staff of *Victory* thanks the numerous farriers, trainers and veterinarians who have contributed to the design and development process over these many decades, enabling us to develop work saving products for the farrier while enhancing performance for the equine athlete.

ALSO AVAILABLE FROM VICTORY®

TRUE-FLITE

TRUE-FLITE hoof pads were introduced in 1968 by Ken Davis of Richwood, Ohio. The ***TRUE-FLITE*** brand name and production molds were purchased by Victory in 1995 and became an integral part of Victory's family of products.

TRUE-FLITE set the industry standard for quality and performance and has been imitated, but never duplicated. ***TRUE-FLITE*** pads are used in all venues of competition, from thoroughbred and harness racing to endurance rides and everyday riding horses. ***TRUE-FLITE*** pads are truly the all terrain, all condition, all climate hoof pad. Whatever the application, ***TRUE-FLITE*** pads fit the need: flat, degree pad, Cushion Heel, Thinliner, Ultra Cushion and Cushion Frog are all original ***TRUE-FLITE*** products.

TRUE-FLITE hoof pads are consistent and reliable because a specific formulation of ingredients is used every time to ensure dependability and performance. ***TRUE-FLITE*** hoof pads maintain their flexibility in extremes of temperature. ***TRUE-FLITE*** pads are economical because call-backs for service are unnecessary and because they are competitively priced.

STEEL HORSESHOES

NATURAL BALANCE

- FRONT PATTERN
- MADE OF FORGED STEEL, THE NATURAL BALANCE SHOE™ DESIGN RESULTED FROM FIELD RESEARCH INVOLVING THE NATURAL WEAR PATTERNS OF UNSHOD WILD HORSES
- THE UNIQUE DESIGN PROVIDES A WIDER BASE OF SUPPORT WHILE PROTECTING THE HOOF
- A HIGHER INSIDE RIM IMPROVES TRACTION AND, ALONG WITH A ROLLED TOE, ENHANCES BREAKOVER IN ANY DIRECTION
- ADDITIONAL NAIL HOLES ALLOW MORE NAILING OPTIONS IN POORER QUALITY HOOVES

SIZES 00 THROUGH 4

PAIRS: TNBS_

NATURAL BALANCE LITE

- FRONT PATTERN
- NATURAL BALANCE LITE SPORT™ CONTAINS ALL THE FEATURES OF THE NATURAL BALANCE SHOE™ WITH A MORE NARROW CROSS SECTION RESULTING IN A LIGHTER WEIGHT SHOE

SIZES 0000 THROUGH 1

PAIRS: TNBSL_

ELITE

- HIND PATTERN.
- MADE OF FORGED STEEL, THE ELITE HIND PATTERN IS THE PERFECT COMPLEMENT TO ANY FRONT SHOE
