

3 CLINICALLY PROVEN TECHNOLOGIES

The mitouch provides 3 stimulation types in one device. These technologies ensures that you have the flexibility to choose the right stimulation type or combination of stimulation types, to target your specific needs or condition.

PERIPHERAL NERVE STIMULATION

Relieves acute and chronic pain. Precisely stimulates sensory nerves to help reduce pain via a number of mechanisms.

NEUROMUSCULAR STIMULATION

Comfortably and rhythmically contracts muscles to improve muscle function and local circulation.

MICROCURRENT STIMULATION

A sub-sensory current used to relieve pain and reduce swelling through cellular repair.

FDA INDICATIONS:

- Relieve acute & chronic pain
- Re-educate muscle
- Prevent disuse/atrophy of muscles
- Increase local blood supply
- Increase range of motion
- Reduce muscle spasm

VA MITOUCH KIT

Includes:
mitouch device, device carrying pouch + lanyard, conducting spray, and **a year's supply of electrodes**

MITOUCH FEATURES

HOW THE MITOUCH CAN HELP YOU.

The easy-to-use 5 app mitouch interface, and Kor Accessories, have significantly improved compliance, making it simpler to incorporate in daily routines, adhere to treatment plans, and get better functional outcomes.

71%

Saw significant improvements in activity levels and were able to walk farther.

MANY CONDITIONS CAN BENEFIT FROM A COMBINATION OF DIFFERENT TYPES OF STIMULATION.

By combining pain and muscle stimulation into a single treatment program, the mitouch's advanced Dualwave technology allows you to target deep-rooted pain and muscle tightness.

60%

Reduction in Pain (avg. pain score dropped from 6.4 to 2.6)

Touch Screen Interface
5 app menu to help you find the right stimulation type for your symptoms.

20 Intensity Levels
Different muscle groups or individuals may require varying levels of intensity, having 20 levels ensures a more personalized and effective treatment.

Two Independent Channels
freedom to treat two areas independently or one large area.

Each App - 4 Treatment Modes
Each App has been carefully developed to provide 4 related but slightly different treatment modes (excluding mc²). Each mode has small differences in beat pattern or frequencies of stimulation. Offering these different frequency options enables you to find the most comfortable and effective mode for you!

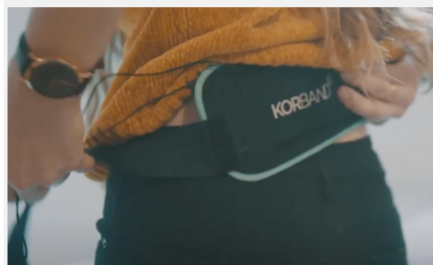

Rechargeable Lithium Ion Battery
15 hours of battery life makes it convenient for use at home or on the go.

BODY-PART SPECIFIC MITOUCH ACCESSORIES

KORBAND

The KorBand provides a better alternative to adhesive pads. The dual carbon pads built into the KorBand provide a large conductive surface area, ideal for the back, hip and abdomen.

KORSHOE

One-size fits all sandal with six metal conducting sites built in the sole, to ensure a targeted stimulation of the nerves and muscles in the feet.

KORGLOV

The KorGlov is specifically crafted with a silver thread integrated into the glove to ensure comprehensive stimulation for the hand and wrist.
